- (6) In exercising its functions under this section, the Authority must have regard to the expenses incurred by the supplier in complying with its obligations under the bulk supply agreement in question and to the desirability of – 45
- (a) facilitating effective competition within the water supply industry;

- (b) the supplier’s recovering the expenses of complying with its obligations by virtue of this section and securing a reasonable return on its capital;

66A Use of water undertaker’s supply system

- (1) This section applies where a water supply licensee with a retail authorisation (“L”) requests a water undertaker to permit the use of the undertaker’s supply system for the purpose of supplying water to premises that – 10
- (a) L is to supply in accordance with L’s retail authorisation, and
 - (b) are in the area of the undertaker.
- (2) This section also applies where a water supply licensee with a restricted retail authorisation (“R”) requests a water undertaker to permit the use of the undertaker’s supply system for the purpose of supplying water to premises that – 15
- (a) R is to supply in accordance with R’s restricted retail authorisation, and
 - (b) are in the area of the undertaker. 20

- (4) A water undertaker is not required by this section to permit the use of its supply system, or to take any steps to enable its use, if the first or second ground applies. 30
- (5) The first ground is that –
- (a) in the case of a request under subsection (1), the water supply licensee has not secured by means of – 35
 - (i) a request under section 66AA(1) made by the licensee,
 - (ii) a request under section 66B(1) or 66C(1), (2) or (3) made by the licensee or another water supply licensee, or

- (6) The second ground is that there is in relation to the water fittings used or to be used in connection with—
- (a) the supply of water to the premises in question, or
- (b) the use of water in those premises, 10
- a contravention of such of the requirements of regulations under section 74 as are prescribed for the purposes of this subsection.
- (7) Where—
- (a) a request has been made by a water supply licensee for the purposes of subsection (1) or (2), and 15
- (b) the steps which the undertaker is required to take by virtue of that request include steps for the purpose of obtaining any necessary authority for, or agreement to, any exercise by it of any of its powers or the carrying out by it of any works,
the failure of the undertaker to acquire the necessary authority or agreement does not affect the liability of the licensee to reimburse the undertaker in respect of some or all of expenses incurred by it in taking those steps, if the section 66D agreement provides for such liability as regards those steps. 20
- (8) In this section and sections 66AA to 66C— 25
- (a) “prescribed” means, in relation to a water undertaker whose area is wholly or mainly in Wales, prescribed by regulations made by the Welsh Ministers by statutory instrument, which is subject to annulment in pursuance of a resolution of the Assembly; 30

- (a) the premises to be supplied by L or, as the case may be, R do not consist in the whole or any part of a building, or
 - (b) the supply to be made by L or, as the case may be, R to those premises is for purposes other than domestic purposes. 15
- (6) The second ground is that provision of a supply of water by the water undertaker would –
- (a) require the undertaker, in order to meet all its existing obligations to supply water for domestic or other purposes, together with its probable future obligations to supply buildings and parts of buildings with water for domestic purposes, to incur unreasonable expenditure in carrying out works, or 20
 - (b) otherwise put at risk its ability to meet any of the existing or probable future obligations mentioned in paragraph (a). 25

- (5) A water undertaker is not required by this section to permit the introduction of water into its supply system, or to take any steps to enable such an introduction of water, if permitting the introduction of water into the undertaker’s supply system would – 45
- (a) require the undertaker, in order to meet all its existing obligations to supply water for domestic or other purposes, 50

- (7) In this section “treatment works” means –
