*“How are other rights to require removal of apparatus enforced?”*

- (2) The third party may give a notice to the operator whose apparatus it is, requiring the operator—
- (a) to remove the apparatus, and
  - (b) to restore the land to its condition before the apparatus was placed on, under or over the land.
- (3) The notice must—
- (a) comply with paragraph 85 (notices given by persons other than operators), and
  - (b) specify the period within which the operator must complete the works.
- (4) The period specified under sub-paragraph (3) must be a reasonable one.
- (5) Within the period of 28 days beginning with the day on which notice under sub-paragraph (2) is given, the operator may give the third party notice (“counter-notice”)—
- (a) stating that the third party is not entitled to require the removal of the apparatus, or
  - (b) specifying the steps which the operator proposes to take for the purpose of securing a right as against the third party to keep the apparatus on the land.
- (6) If the operator does not give counter-notice within that period, the third party is entitled to enforce the removal of the apparatus.

**Digital Economy Bill, *continued***

- (7) If the operator gives the third party counter-notice within that period, the third party may enforce the removal of the apparatus only in pursuance of an order of the court that the third party is entitled to enforce the removal of the apparatus.
- (8) If the counter-notice specifies steps under paragraph (5)(b), the court may make an order under sub-paragraph (7) only if it is satisfied—
  - (a) that the operator is not intending to take those steps or is being unreasonably dilatory in taking them; or
  - (b) that taking those steps has not secured, or will not secure, for the operator as against the third party any right to keep the apparatus installed on, under or over the land or to re-install it if it is removed.
- (9) Where the third party is entitled to enforce the removal of the apparatus, under sub-paragraph (6) or under an order under sub-paragraph (7), the third party may make an application to the court for—
  - (a) an order under paragraph 39(1) (order requiring operator to remove apparatus etc), or
  - (b) an order under paragraph 39(2) (order enabling third party to sell apparatus etc).
- (10) If the court makes an order under paragraph 39(1), but the operator does not comply with the agreement imposed on the operator and the third party by virtue of paragraph 39(5), the third party may make an application to the court for an order under paragraph 39(2).
- (11) An order made on an application under this paragraph need not include provision within paragraph 39(1)(b) or (2)(d) unless the court thinks it appropriate.
- (12) Sub-paragraph (9) is without prejudice to any other method available to the third party for enforcing the removal of the apparatus.

*How does paragraph 38A apply if a person is entitled to require apparatus to be altered in consequence of street works?*

- 38B
- (1) This paragraph applies where the third party's right in relation to which paragraph 38A applies is a right to require the alteration of the apparatus in consequence of the stopping up, closure, change or diversion of a street or road or the extinguishment or alteration of a public right of way.
  - (2) The removal of the apparatus in pursuance of paragraph 38A constitutes compliance with a requirement to make any other alteration.
  - (3) A counter-notice under paragraph 38A(5) may state (in addition to, or instead of, any of the matters mentioned in paragraph 38A(5)(b)) that the operator requires the third party to reimburse the operator in respect of any expenses incurred by the operator in or in connection with the making of any alteration in compliance with the requirements of the third party.
  - (4) An order made under paragraph 38A on an application by the third party in respect of a counter-notice containing a statement under sub-paragraph (3) must, unless the court otherwise thinks fit, require the third party to reimburse the operator in respect of the expenses referred to in the statement.
  - (5) Paragraph 39(2)(b) to (e) do not apply.
  - (6) In this paragraph—
    - “road” means a road in Scotland;

- (2) The occupier of the land, the owner of the freehold estate in the land or the lessee of the land (“the relevant person”) has the right to require the operator to restore the land if the relevant person is not for the time being bound by the code right.

  - (b) the time at which or period within which the land will be restored.
- (9) The landowner may make an application to the court for—

**Member’s explanatory statement**

*This allows an appeal to the Competition Appeal Tribunal against a penalty imposed by OFCOM under section 42 of the Wireless Telegraphy Act 2006 for a breach of a wireless telegraphy licence, except where the breach relates only to broadcast content (in which case, as at present, an appeal to the Tribunal will not be possible).*

Matt Hancock

9

Clause 14, page 17, line 18, leave out “Subsections (3A) and (3B)” and insert “Section 41(7) and subsection (3B) above”

**Member’s explanatory statement**

*Subsection (3C), inserted in section 107 of the Wireless Telegraphy Act 2006 by the clause, lists enactments displaced by the time limits mentioned in subsections (3A) and (3B). Subsection (3A) merely refers to section 41(7), and the amendment substitutes a direct reference to that provision for the reference to subsection (3A).*

Matt Hancock

11

Clause 14, page 17, line 31, at end insert—

“( ) for subsection (8) substitute—

“(8) For further provision about prosecutions see section 107.””

**Member’s explanatory statement**

*Existing section 41(8) of the Wireless Telegraphy Act 2006 applies to section 41(7) and is superseded by section 107(3C) inserted by the clause (see amendment 9). Amendment 10 also*

NC3

To move the following Clause—

**“Power to provide for a code of practice related to copyright infringement**

- (1) The Secretary of State may by regulations make provision for a search engine to be required to adopt a code of practice concerning copyright infringement that complies with criteria specified in the regulations.
- (2) The regulations may provide that if a search engine fails to adopt such a code of practice, any code of practice that is approved for the purposes of that search engine by the Secretary of State, or by a person designated by the Secretary of State, has effect as a code of practice adopted by the search engine.
- (3) The Secretary of State may by regulations make provision—
  - (a) for the investigation and determination of disputes about a search engine's compliance with its code of practice,
  - (b) for the appointment of a regulator to review and report to the Secretary of State on—
    - (i) the codes of practice adopted by search engines, and
    - (ii) compliance with the codes of practice;
  - (c) for the consequences of a failure by a specified search engine to adopt or comply with a code of practice including financial penalties or other sanctions.
- (4) Regulations made under this section—

  - (b) may make incidental, supplementary or consequential provision;
  - (c) shall be made by statutory instrument which shall be subject to annulment in pursuance of a resolution of either House of Parliament.”

***Member's explanatory statement***

*This would amend the Bill to present an opportunity for the Government to fulfil its manifesto commitment to reduce copyright infringement and ensure search engines do not link to the worst-offending sites. There is an absence of a specific provision in the Bill to achieve this.*

NC5

To move the following Clause—

**“Internet pornography: requirement to prevent publication of material involving persons subject to force etc**

- (1) It is an offence for a person to make available on the internet pornographic material on a commercial basis to persons in the United Kingdom if they know or

**Digital Economy Bill, continued**

ought to know that the production of the pornographic material involved exploited persons.

- (2) For the purposes of this section, exploited persons are persons who have been induced or encouraged to appear in the pornographic material as a result of exploitative conduct.
- (3) Exploitative conduct means, but is not limited to—
  - (a) the use of force, threats (whether or not relating to violence) or any other form of coercion, or
  - (b) any form of deception.
- (4) It is irrelevant where in the world the exploitative conduct takes place.
- (5) For the purposes of this section, making pornographic material available on the internet on a commercial basis has the same meaning as section 15(2).
- (6) A person guilty of an offence under subsection (1) shall be liable, on summary conviction, to imprisonment for a term not exceeding six months or a fine not exceeding level 5 on the standard scale or both.”

**Member’s explanatory statement**

*The purpose of this new clause is to make it an offence to make available pornographic material on a commercial basis where it could reasonably be known that persons have been induced to appear in the material by coercion, threats, force, deception, or by any other exploitative conduct.*

NC6

To move the following Clause—

**“Requirement to cease services to non-complying persons**

- (1) Where the age-verification regulator has given notice to a payment-services provider or ancillary service provider under section 22(1), the payment-services provider or ancillary service provider must cease the service provided to the person making pornographic material available in the United Kingdom.
- (2) A payment-services provider or ancillary service provider who fails to comply with a requirement imposed by subsection (1) commits an offence, subject to subsection (3).
- (3) No offence is committed under subsection (2) if the payment-services provider or ancillary service provider took all reasonable steps and exercised all due diligence to ensure that the requirement would be complied with.
- (4) A payment-services provider or ancillary service provider guilty of an offence under subsection (2) is liable, on summary conviction, to a fine.
- (5) In this section “payment-services provider” and “ancillary service provider” have the same meaning as in section 22.”

**Member’s explanatory statement**

*This new clause requires payment and ancillary services to block payments or cease services made to pornography websites that do not offer age-verification if they have received a notice of non-compliance under section 22(1). This provision would only apply to websites outside of the UK. This would enhance the enforcement mechanisms that are available under the Bill.*

**“On-demand programme services: requirement to prevent persons under the age of 18 accessing pornographic material with an 18 classification certificate**

      - (i) that it was produced solely or principally for the purposes of sexual arousal, and

      - (i) that it was produced solely or principally for the purposes of sexual arousal, and
      - (ii) that any classification certificate issued for a video work including it would be an 18 certificate.”

    - (b) does not contain the statement mentioned in section 7(2)(c) of that Act that no video recording containing the video work is to be supplied other than in a licensed sex shop;”

To move the following Clause—

**“Duty to provide a service that excludes adult-only content**

- (1) This section applies to internet service providers who supply an internet access service to subscribers.
- (2) For the purposes of subsection (1), “subscribers” includes—
  - (a) domestic subscribers;
  - (b) schools; and
  - (c) organisations that allow a person to use an internet access service in a public place.

For the purposes of the conditions in subsections (3) and (4), if the subscriber is a school or organisation a responsible person within the school or organisation shall be regarded as the subscriber.
- (3) A provider to whom subsection (1) applies must provide to subscribers an internet access service which excludes adult-only content unless all of the conditions listed in subsection (4) have been fulfilled.
- (4) The conditions are—
  - (a) the subscriber “opts in” to subscribe to a service that includes online adult-only content;
  - (b) the subscriber is aged 18 or over; and
  - (c) the provider of the service has an age verification scheme which meets the standards set out by OFCOM in subsection (4) and which has been used to confirm that the subscriber is aged 18 or over before a user is able to access adult-only content.
- (5) It shall be the duty of OFCOM, to set, and from time to time to review and revise, standards for the—
  - (a) filtering of adult content in line with the standards set out in Section 319 of the Communications Act 2003;
  - (b) age verification policies to be used under subsection (4) before an user is able to access adult content; and
  - (c) filtering of content by age or subject category by providers of internet access services.
- (6) The standards set out by OFCOM under subsection (5) must be contained in one of more codes.
- (7) Before setting standards under subsection (5), OFCOM must publish, in such a manner as they think fit, a draft of the proposed code containing those standards.
- (8) After publishing the draft code and before setting the standards, OFCOM must consult relevant persons and organisations.
- (9) It shall be the duty of OFCOM to establish procedures for the handling and resolution of complaints in a timely manner about the observance of standards set under subsection (5), including complaints about incorrect filtering of content.
- (10) OFCOM may designate any body corporate to carry out its duties under this section in whole or in part.
- (11) OFCOM may not designate a body under subsection (10) unless, as respects that designation, they are satisfied that the body—
  - (a) is a fit and proper body to be designated;
  - (b) has consented to being designated;
  - (c) has access to financial resources that are adequate to ensure the effective performance of its functions under this section; and

**Digital Economy Bill, continued**

- (d) is sufficiently independent of providers of internet access services.
- (12) It shall be a defence to any claims, whether civil or criminal, for a provider to whom subsection (1) applies to prove that at the relevant time they were—
- (a) following the standards and code set out in subsection (5); and
  - (b) acting in good faith.
- (13) Nothing in this section prevents any providers to whom subsection (1) applies from providing additional levels of filtering of content.
- (14) In this section—
- “adult-only content” means material that contains offensive and harmful material from which persons under the age of 18 are protected;
  - “age verification scheme” is a scheme to establish the age of the subscriber;
  - “internet access service” and “internet service provider” have the same meaning as in section 124N of the Communications Act 2003 (interpretation);
  - “material from which persons under the age of 18 are protected” means material specified in the OFCOM standards under section 2;
  - “OFCOM” has the same meaning as in Part 1 of the Communications Act 2003;
  - “offensive and harmful material” has the same meaning as in section 3 of the Communications Act 2003 (general duties of OFCOM); and
  - “subscriber” means a person who receives the service under an agreement between the person and the provider of the service.”

**Member’s explanatory statement**

*This new clause places a statutory requirement on internet service providers to limit access to adult content by persons under 18. It would give Ofcom a role in determining the age verification scheme and how material should be filtered. It would ensure that ISPs were able to continue providing family friendly filtering once the net neutrality rules come into force in December 2016.*

**“Power to make regulations about blocking injunctions preventing access to locations on the internet**

- (1) The Secretary of State may by regulations make provision about the granting by a court of a blocking injunction in respect of a location on the internet which the court is satisfied has been, is being or is likely to be used for or in connection with an activity that is contravening, or has contravened, section 15(1) of this Act.
- (2) “Blocking injunction” means an injunction that requires an internet service provider to prevent its service being used to gain access to a location on the internet.
- (3) Regulations introduced under subsection (1) above may, in particular—
  - (a) make provision about the type of locations against which a blocking injunction should be granted;
  - (b) make provision about the circumstances in which an application can be made for a blocking injunction;

- (4) Regulations under this subsection must be made by statutory instrument.
- (5) (5)A statutory instrument containing regulations under this section may not be made unless a draft of the instrument has been laid before, and approved by a resolution of, each House of Parliament.
- (6) In this Part—
 

“Internet service provider” has the same meaning as in section 16 of the Digital Economy Act 2010.

**Digital Economy Bill, continued**

In the application of this Part to Scotland  
“injunction” means interdict.”

**Member’s explanatory statement**

*This new Clause empowers the Secretary of State to introduce regulations in relation to the granting of a backstop blocking injunction by a court. The injunction would require an internet service provider to prevent access to a site or sites which do not comply with the age-verification requirements. This would only be used where the other enforcement powers (principally fines) had not been effective in ensuring that sites put in place effective age-verification.*
