Fisheries Bill, *continued*

- (2) The Secretary of State must pursue the following two objectives when negotiating a fisheries agreement.
- (3) The first objective is that the agreement should provide for annual negotiations to determine fishing opportunities.
- (4) The second objective is that the agreement should have the effect that Union fishing boats are not granted access to UK waters in any year unless the fishing opportunities for that year that are available for distribution by the United Kingdom are (looked at in the round) greater than those that would have been so available under relative stability.
- (5) The reference in subsection (4) to the fishing opportunities for any year that would have been available for distribution by the United Kingdom “under relative stability” is to the fishing opportunities that would, in the opinion of the Secretary of State, have been so available for that year under the common fisheries policy, were the United Kingdom still a member of the EU.
