 - (b) it is not land to which such an obligation related at that time and Her Majesty in right of the Crown has not taken possession or control of the land, or entered into occupation of it.

Land subject to escheat

This amendment replaces paragraphs 3 and 4 of Schedule 17 with three new paragraphs. Paragraph 3A is new and deals with the application of Part 7 to land to which a conservation covenant relates which becomes subject to escheat to the Crown (for example where the land is disclaimed by a trustee in bankruptcy). Clause 131, page 117, line 21, leave out “on such day as the Secretary of State may by regulations appoint” and insert “at the end of the period of six months beginning with the day on which this Act is passed”

Currently multiple provisions including the whole of Part 1 (environmental governance), Part 6 (nature and biodiversity) and Part 7 (Conservation Covenants) could never be enacted, even after the Bill has received Royal Assent.

- (2) In this section, “IP completion day” has the same meaning as in section 39 of the European Union (Withdrawal Agreement) Act 2020.”

Member’s explanatory statement

To move the following Clause—

“Well consents for hydraulic fracturing: cessation of issue and termination

- (1) No well consent which permits associated hydraulic fracturing may be issued by the Oil and Gas Authority (“OGA”).
- (2) Sections 4A and 4B of the Petroleum Act 1998(as inserted by section 50 of the Infrastructure Act 2015), are repealed.
- (3) Any well consent which has been issued by the OGA which—
 - (a) permits associated hydraulic fracturing and
 - (b) is effective on the day on which this Act receives Royal Assent shall cease to be valid three months after this Act receives Royal Assent.

- (4) In this section—

“associated hydraulic fracturing” means hydraulic fracturing of shale or strata encased in shale which—

- (a) is carried out in connection with the use of the relevant well to search or bore for or get petroleum, and
- (b) involves, or is expected to involve, the injection of—
 - (i) more than 1,000 cubic metres of fluid at each stage, or expected stage, of the hydraulic fracturing, or
 - (ii) more than 10,000 cubic metres of fluid in total, or
 - (iii) acid intended to dissolve rock; and

“well consent” means a consent in writing of the OGA to the commencement of drilling of a well.”

Member’s explanatory statement

This new clause, as a response to recent hydraulic fracturing exploration activity including in Rother Valley, would prevent the Oil and Gas Authority from being able to provide licences for hydraulic fracturing, exploration or acidification, and would revoke current licences after a brief period to wind down activity.
