

TELECOMMUNICATIONS (SECURITY) BILL

EXPLANATORY NOTES

What these notes do

These Explanatory Notes relate to the Telecommunications (Security) Bill as introduced in the House of Commons on 24 November 2020 (Bill 216).

- These Explanatory Notes have been prepared by the Department for Digital, Culture Media and Sport in order to assist the reader of the Bill and to help inform debate on it. They do not form part of the Bill and have not been endorsed by Parliament.
- These Explanatory Notes explain what each part of the Bill will mean in practice; provide background information on the development of policy; and provide additional information on how the Bill will affect existing legislation in this area.
- These Explanatory Notes might best be read alongside the Bill. They are not, and are not intended to be, a comprehensive description of the Bill.

Annex B - Territorial extent and application in the United Kingdom	46

Overview of the Bill

1. The Telecommunications (Security) Bill (“the Bill”) takes forward the Government’s commitment in the *UK Telecoms Supply Chain Review Report*¹ to introduce a new security framework for the UK telecoms sector to ensure that public telecommunications providers operate secure and resilient networks and services and manage their supply chains appropriately.
2. The Bill amends the Communications Act 2003 by establishing a new telecommunications security framework, including new security duties on public telecommunications providers and new powers for the Secretary of State to make regulations and issue codes of practice. It includes provisions strengthening Ofcom’s regulatory powers, allowing them to enforce the new framework.
3. The Bill also introduces new national security powers for the Government to impose, monitor and enforce controls on public communications providers’ use of designated vendors’ goods, services and facilities within UK telecommunications networks.

Policy background

5G and Full fibre networks

4. As outlined in the *Future Telecoms Infrastructure Review (FTIR)*², the widespread deployment of 5G and full fibre networks is a primary Government objective. These networks will help to drive future economic growth, enabling a wide range of new products and services that require faster speeds and more processing power. 5G has the potential to connect a vast network of people, objects and communication systems, including those within critical sectors.
5. The development of 5G and full-fibre networks also creates new security challenges. The speed, scale and processing power of the UK’s future digital infrastructure will create new economic and social opportunities for greater connectivity, including across the UK Critical National Infrastructure (CNI) sectors that are likely to have a greater dependence on 5G infrastructure compared to that of legacy arrangements (2G/3G/4G). The technical characteristics of 5G networks increase their risk profile compared to previous generations of networks. 5G networks will run at much faster data speeds and will be based on software running on commodity hardware, rather than proprietary hardware. Over time, to achieve the

¹ <https://www.gov.uk/government/publications/telecoms-supply-chain-review-terms-of-reference>

² <https://www.gov.uk/government/publications/future-telecoms-infrastructure-review>

full potential of 5G, some of the ‘core’³ functions will move closer to the ‘edge’⁴ of the network. As this happens, it will be necessary to ensure security arrangements are able to protect both the edge and core of the network.

6. The security of telecoms infrastructure needs to be considered within an international context. Certain state, state-sponsored and other actors have the intent and capability to carry out espionage, sabotage and destructive or disruptive cyber-attacks, including through access to the telecoms supply chain. Over the past two years, the UK Government has, based on National Cyber Security Centre (NCSC) assessments, attributed a range of malicious cyber activity to Russia and China, as well as North Korea and Iranian actors.

The Office of Communications (Ofcom)

7. Ofcom is the independent regulator for communications in the UK. Its remit covers the regulation of broadband and telecoms, TV, radio, video-on-demand services and postal services. It is also responsible for the effective management of use of the radio spectrum.
8. Ofcom is established under the Office of Communications Act 2002. Ofcom’s powers are found in the Communications Act 2003 and the Wireless Telegraphy Act 2006, as well as other enactments including the Broadcasting Acts 1990 and 1996, and the Postal Services Act 2011.
9. Ofcom is a statutory corporation. Its governance arrangements are set out in the Office of Communications Act 2002 and as a public authority it is also subject to other legal duties, including requirements to ensure it acts compatibly with human rights (under the Human Rights Act 1998) and to comply with the data protection legislation. The Bill does not affect those obligations.

The Communications Act 2003

10. The Communications Act 2003 (“the 2003 Act”) provides the current regulatory framework for telecommunications security. The responsibility for the management of security and resilience risks for UK telecoms is shared between Government, Ofcom and industry. The 2003 Act, as amended by the Electronic Communications and Wireless Telegraphy Regulations 2011, requires public telecommunications providers to take measures to protect the security and resilience of their networks and services, and gives Ofcom enforcement powers. The relevant provisions are found at sections 105A to 105D of the 2003 Act.

The UK Telecoms Supply Chain Review

11. In 2018-2019, the Government carried out a review of UK telecoms networks’ supply chain arrangements. Conclusions of the review were published in the *UK Telecoms Supply Chain Review Report* in July 2019.

³ The ‘core’ includes critical functionality (e.g. user authentication and call routing).

⁴ The ‘edge’ includes local aggregations sites (i.e. data nodes in metropolitan areas) which are closer to end-users.

12. The Review identified that inadequate industry security practices were driven by a lack of incentives to manage risk, including the inability of the regulatory framework to drive improvements in cyber security. It concluded that higher standards and practices of cyber security are required across the telecoms sector as a technical pre-condition for secure 5G and full fibre networks.
13. The Review called for a new, more robust telecoms security framework - one that will meet security challenges both now and in the future whilst ensuring the timely roll-out of the UK's critical digital infrastructure. It suggested that as technologies grow and evolve the UK must have a security framework that is fit for purpose and ensures the UK's telecoms critical national infrastructure remains safe and secure both now and in the future.
14. The *UK Telecoms Supply Chain Review Report* explained that the Government would establish a new robust security framework for the UK telecoms sector, marking a significant shift from the current model. The new framework is necessary to safeguard the UK's national security interests and will build on existing capabilities. It will provide clarity to industry, whilst providing the necessary flexibility and powers for the Government to respond appropriately as risks, threats and technology change.
15. The Report also explained that the Government would create new powers to manage the risks posed by high risk vendors. High risk vendors are those who pose greater security and resilience risks to UK telecoms networks. This new framework will help to ensure that telecoms providers are managing the security risks posed by all suppliers.
16. The final conclusions of the Review, which were agreed by the National Security Council in January 2020, set out the need for new national security powers to control the presence of high risk vendors in UK networks.

High Risk Vendors

17. On 28 January 2020, in light of detailed technical and security analysis provided by the National Cyber Security Centre (NCSC), part of GCHQ, the Government announced that new restrictions should be placed on the use of 'high risk' vendors in the UK's 5G and full-fibre networks. It announced that such vendors should be:
 - excluded from security critical network functions;
 - excluded from sensitive geographic locations; and
 - restricted to a minority presence in other network functions to a cap of up to 35%, subject to an NCSC-approved risk mitigation strategy.
18. The Government made it clear in January that the NCSC would continue to review and update its advice as necessary. On 15 May, the US Department of Commerce announced that new sanctions had been imposed against Huawei through changes to the foreign direct product rules. The new US measures restrict Huawei's ability to produce essential components using US technology or software. The NCSC reviewed the consequences of the

US actions, and reported to Ministers that they had significantly changed their security assessment of Huawei's presence in the UK 5G network. The NCSC concluded that given the uncertainty the US sanctions created around Huawei's supply chain, the UK could no longer be confident it would be able to guarantee the security of future Huawei 5G equipment affected by the change in the US foreign direct product rules. To manage this risk, the NCSC issued new advice to the Government on the use of Huawei in the UK telecoms network.

19. The Government agreed with the NCSC's advice that, to secure the UK's public telecoms, providers should not use Huawei equipment affected by the US sanctions to build the UK's future networks. Consequently, on 14 July it announced that public telecoms providers should:
 - stop purchasing affected 5G equipment from Huawei after 31 December 2020; and
 - remove all Huawei equipment from 5G networks by the end of 2027.
20. The Government advised full fibre telecoms providers to transition away from purchasing Huawei full fibre equipment affected by the US sanctions. A technical consultation would determine the precise timetable from which point full fibre telecoms providers should stop procuring affected equipment.
21. Whilst the NCSC currently provides advice to public telecoms providers on the risks presented by high risk vendors and on the measures that the NCSC recommends they adopt as a result, the Government does not currently have the power to impose binding controls on public communications providers' use of high risk vendors. The Bill will provide the Government with such powers.

Telecoms Security Framework

Responsibilities on Telecoms Providers

22. The Government plans to provide the UK with one of the most robust telecoms security frameworks in the world. Telecoms companies – providers of public electronic communications networks and services (see definitions in Annex A) – are already required to implement general security protections under the existing 2003 Act provisions. The Government intends to build on these practices to remedy the flaws identified in the Telecoms Supply Chain Review.
23. To do this, the Bill sets out new duties on telecoms providers to raise the bar for security. It requires telecoms providers, overseen by Ofcom, to design and manage their networks to protect against existing and future threats to the UK's network security. This means identifying, reducing and eliminating risks to networks and services. Public telecoms networks and services will be protected by the provider safeguarding their availability and confidentiality, and making them secure from unauthorised interference.
24. Where security compromises do occur, the impact on end-users can be substantial and potentially damaging. The Bill therefore places duties on providers, to take appropriate and

proportionate action to ensure that the effects of compromises are limited and act to remedy the impact on networks and services.

25. While networks are owned and operated by different companies, there are common measures that can be taken to level up security protections across all networks and services. Analysis was conducted during the Telecoms Supply Chain Review, including in-depth contributions from and interviews with telecoms providers, vendors and other industry representatives. This engagement, plus the practical findings of threat-based, intelligence-led penetration testing and industry-submitted reports of breaches, identified the areas posing greatest risk to networks and services. This has been supplemented by NCSC threat analysis⁵ that determines the security outcomes most needed to prevent security flaws.
26. The Bill makes provision for the Secretary of State to make regulations, setting out these common security outcomes and the actions to be taken to meet them. This includes the ability to make regulations that provide for measures to be taken to prevent security compromises, and - where specific compromises are detailed in the regulations - measures to remedy the effects of compromises on the network or service. Such regulations may include, for example, specific security requirements that ensure networks and services are securely built, managed and overseen, and that vendor procurement and ongoing management support security.
27. The UK has a competitive telecoms market which spans large, multinational companies through to small and micro businesses. Reflecting this diversity, Ofcom as the communications regulator and NCSC as the expert technical security authority provide support and advice, tailored to different types of provider, on appropriate detailed measures to secure their networks and services. The Government therefore recognises that guidance can provide clarity and certainty to providers for achieving compliance with legal obligations. The Bill makes provision for the Secretary of State to issue new telecoms security codes of practice, that will set out to certain types of provider the detailed and specific security measures they should take to comply with the law. These codes will be based on NCSC best practice security guidance, and the Government will consult publicly on their initial implementation and subsequent revision. Codes of practice will be admissible in legal proceedings, and a court or tribunal must consider them where they are in force and where a provision is relevant to the proceedings.
28. The European Electronic Communications Code Directive (EECC) included provisions relating to telecoms security. Some of these reflected the previous EU framework for electronic communications and were already transposed in UK law. Others are being given effect through the Bill. These address the obligations on providers to report a range of security incidents to Ofcom. This will give Ofcom the information that they need to understand security across the industry.

⁵ <https://www.ncsc.gov.uk/files/Summary%20of%20the%20NCSCs%20security%20analysis%20for%20the%20UK%20telecoms%20sector.pdf>

Ofcom's Regulatory Powers

29. The Bill will provide Ofcom with stronger regulatory powers to enforce the new regime. It sets out new responsibilities for Ofcom to assess providers' security. Ofcom has a power, going beyond the current audit powers, to issue assessment notices. These will allow Ofcom to assess, or commission others to assess, providers' compliance. In completing these assessments, Ofcom will take into account any relevant code of practice. Ofcom will be able to complete audits of providers' security provisions and technical tests of a provider's security, as well as require providers to complete penetration testing that will simulate tactics that may be used by attackers.
30. The Bill will provide for a range of penalties should providers contravene their legal duties. These penalties consist of fines to a maximum of 10% of turnover or a daily penalty of £100,000 for continuing offences. Equally there will be increased penalties for security related information offences of up to £50,000 per day or a maximum of £10 million.
31. To ensure the Government can oversee the regime, Ofcom will be able to share information with the Government. For example, it can notify the Government about security incidents or the risks of security incidents. The Bill also makes provisions for Ofcom to report on telecoms providers' security to the Secretary of State. These reports will set out the extent to which providers are complying with new security obligations and are acting in accordance with the codes of practice, as well as any action that Ofcom has taken in response to security compromises. Telecoms security will also be included in Ofcom's annual infrastructure report, which is laid before Parliament.

National Security Powers

32. Telecoms security risks can to a large extent be managed and mitigated through technical measures (detailed in the security framework and codes of practice as set out above). However, the Government considers that some risks relating to the use of high risk vendors' goods, services and facilities are not able to be mitigated effectively solely through the requirements that will be imposed as part of the new telecoms security framework. Further measures are needed to enable the Government to manage the risks posed by those vendors. Such risks may arise from technical deficiencies or considerations relating to the ownership and operating location of the vendor.
33. This Bill will introduce new powers to enable the Secretary of State to designate specific vendors for the purposes of issuing designated vendor directions to public communications providers (see definition in Annex A). The designated vendor directions will place restrictions on the public communications provider's use of the goods, services or facilities supplied by designated vendors. The restrictions that may be imposed include requirements that prohibit or restrict providers' use of designated vendors' equipment.

34. Designations and directions may only be made in the interests of national security. When considering whether to designate a vendor, the Secretary of State will take into account a range of factors, including:
- the strategic position or scale of the vendor in UK networks;
 - the strategic position or scale of the vendor in other telecoms networks, particularly if the vendor is new to the UK market;
 - the quality and transparency of the vendor's engineering practices and cyber security controls;
 - the vendor's resilience both in technical terms and in relation to the continuity of supply to UK operators;
 - security laws in the jurisdiction where the vendor is based and the risk of external direction that conflicts with the interests of national security;
 - the relationship between the vendor and the vendor's domestic state apparatus;
 - the availability of offensive cyber capability by that domestic state apparatus, or associated actors, that might affect the national security of any country or territory.
35. The Bill will make it a duty for public communications providers to comply with any requirements specified in a designated vendor direction that follows designation, and will enable appropriate sanctions to be imposed for non-compliance. The Secretary of State will be responsible for taking forward any enforcement action as necessary, drawing upon information provided by Ofcom, who can be tasked under the Bill's provisions to gather information on telecoms providers' use of designated vendors' goods, services and facilities in relation to their compliance with requirements imposed in a designated vendor direction.
36. The Bill will create a power for the Secretary of State to require information from public communications providers about their current or planned use of vendors' goods, services or facilities, or about the future development of their networks or services. This power can also be used to gather information about goods, services or facilities that vendors propose to supply. The power will be used to ensure the Secretary of State is informed about the demand and supply side of the telecoms market, enabling relevant security assessments to be made.
37. The Bill will also enable the Secretary of State to require providers to prepare and provide a plan to the Secretary of State and Ofcom setting out how they intend to meet any requirements specified in a direction.

Legal background

38. The existing legal framework for the regulation of telecommunications is primarily set out in Part 2 of the 2003 Act. This implemented the European common regulatory framework for electronic communications, which comprised a set of four EU directives (the Framework Directive (2002/21/EC), the Access Directive (2002/19/EC), the Authorisation Directive

(2002/20/EC) and the Universal Service Directive (2002/22/EC)).

39. Those directives are replaced by Directive (EU) 2018/1972 establishing the European Electronic Communications Code (“the EECC Directive”). The Electronic Communications and Wireless Telegraphy (Amendment) (European Electronic Communications Code and EU Exit) Regulations 2020, which are to implement the EECC Directive with effect from 21 December 2020, have been approved by both Houses of Parliament.
40. The Bill replaces the existing legal framework relating to the security of public electronic communications networks and services under sections 105A to 105D of the 2003 Act. These sections were inserted in 2011 to implement Articles 13a and 13b of the Framework Directive (as amended by Directive 2009/140/EC).
41. Other related legislation includes the Privacy and Electronic Communications (EC Directive) Regulations 2003 (as amended) which contain certain provisions relating to the security of public electronic communications services insofar as relevant to the processing of personal data in the electronic communications sector.
42. The Network and Information Systems Regulations 2018 (as amended) make provision about the security of ‘network and information systems’ on which ‘essential services’ in various critical sectors depend. The regulations implemented Directive (EU) 2016/1148, which was itself modelled on Articles 13a and 13b of the Framework Directive. Providers of public electronic communications networks and public electronic communications services therefore fall outside the scope of these regulations, but Ofcom regulates the ‘digital infrastructure’ sector which consists of domain name system (DNS) services, domain name registries and internet exchange points (IXPs).

Territorial extent and application

43. The Bill extends and applies to the whole of the UK.
44. Telecommunications and wireless telegraphy are reserved matters under each of the devolution settlements: see paragraph C10 in Part II of Schedule 5 to the Scotland Act 1998, paragraph 83 in section C9 of Part 2 of Schedule 7A to the Government of Wales Act 2006, and paragraph 29 of Schedule 3 to the Northern Ireland Act 1998.
45. National security is also a reserved or excepted matter under each of the devolution settlements: see paragraph B8 of Part II of Schedule 5 to the Scotland Act 1998, paragraph 32 in section B3 of Part 2 of Schedule 7A to the Government of Wales Act 2006, and paragraph 17 of Schedule 2 to the Northern Ireland Act 1998.
46. See the table in Annex B for a summary of the position regarding territorial extent and application in the United Kingdom. The table also summarises the position regarding legislative consent motions.

Commentary on provisions of Bill

Security of public electronic communications networks and services

Clause 1: Duty to take security measures

Summary

47. This clause places a new duty on providers to take security measures. To complement this overarching duty, the clause allows the Secretary of State to impose more specific security duties on providers by regulations.

Details of the clause

48. The clause replaces sections 105A to 105D of the 2003 Act with new sections 105A and 105B.

Section 105A: Duty to take security measures

49. Subsection (1) requires providers to take steps to identify and reduce the risks of security compromises occurring and prepare for the occurrence of security compromises.
50. Security measures for the purpose of identifying the risk of security compromises would include the provider carrying out a risk assessment in relation to its network or service.
51. Security measures for the purpose of reducing the risk of security compromises would include measures taken in the design of the network or service (such as segregation of the most sensitive controls from the rest of the network).
52. Security measures for the purpose of preparing for the occurrence of security compromises would include measures such as retaining copies of information that would enable the running of functions that are most critical to a network or service in the event that these were compromised. Other measures may address the secure operation of the network or service. This could take the form of having procedures in place to monitor the network for abnormalities so that security compromises can be identified and remedied as quickly as possible.
53. Subsection (2) defines “security compromise”. The definition is broad and includes (among other things) anything that compromises the availability, performance or functionality of the network or service, or that compromises the confidentiality of the signals conveyed by means of the network or service.
54. Subsection (3) provides that the definition of security compromises does not include anything that occurs as the result of certain kinds of conduct. This includes, for example, conduct that is required or authorised under enactments such as the Investigatory Powers Act 2016, ensuring that the Bill does not adversely affect lawful activity carried out by law enforcement authorities or by the intelligence services which could otherwise fall within the definition of security compromise.

55. Subsection (4) lists enactments for the purpose of subsection (3), and includes enactment that makes provisions which is in the interests of national security, has effect for the purpose of preventing or detecting crime or preventing disorder, or makes provision which is in the interest of the economic well-being of the UK as far as those interests are relevant to national security.

Section 105B: Duty to take specified security measures

56. Subsection (1) provides the Secretary of State with the power to make regulations which require providers to take specified security measures.
57. Subsection (2) provides that such measures may only be specified in regulations if the Secretary of State considers that they would be appropriate and proportionate for one of the purposes identified in subsection 105A(1).

Clause 2: Duty to take measures in response to security compromises

Summary

58. This clause requires providers to take measures in response to security compromises, as defined in new section 105A. To complement the overarching duty, the clause allows the Secretary of State to impose specific security duties on providers by regulations.

Details of the clause

59. The clause inserts new sections 105C and 105D into the 2003 Act.

Section 105C: Duty to take measures in response to security compromises

60. Subsection (2) places a duty on providers to take measures to prevent adverse effects arising from a security compromise that has occurred. This is not limited to adverse effects on the network or service itself. Where the security compromise has an adverse effect on the network or service, subsection (3) requires the provider to take measures to remedy or mitigate that effect.

Section 105D: Duty to take specified security measures in response to security compromises

61. Subsection (1) provides the Secretary of State with the power to make regulations which require providers to take specified measures in response to a specified security compromise. Subsection (2) explains that providers can only be required to take measures that the Secretary of State considers are appropriate and proportionate to prevent adverse effects arising from the specified security compromise.
62. Subsection (3) provides the Secretary of State with the power to make regulations which require providers to take specified measures where a security compromise has a specified adverse effect on the network or service. Subsection (2) explains that providers can only be

required to take measures that the Secretary of State considers are appropriate and proportionate ways to remedy or mitigate the specified adverse effect.

Clause 3: Codes of practice about security measures etc

Summary

63. This clause gives the Secretary of State the power to issue codes of practice providing guidance to providers on measures to take in order to meet the new security duties within the Act. It includes provisions relating to the issuing, revision and re-issuing, withdrawal and effects of the codes of practice and a duty on providers to explain any failure to comply with the measures in a code of practice.

Details of the Clause

64. The clause inserts new sections 105E to 105I into the 2003 Act.

Section 105E: Codes of practice about security measures etc

65. Section 105E allows the Secretary of State to issue, revise and re-issue or withdraw codes of practice which give guidance on the measures to be taken by providers under sections 105A to 105D.

Section 105F: Issuing codes of practice about security measures

66. Subsection (1) sets out what the Secretary of State must do before issuing a code of practice. It explains that the Secretary of State:
- must publish a draft of the code or the revisions of the code;
 - must consult about the draft with Ofcom, providers to whom the draft would apply, and other persons as appropriate; and
 - may make alterations to the draft after consultation if appropriate.

67. Subsection (2) requires the Secretary of State to publish an issued code and lay a copy of it before Parliament. Subsections (3) and (4) set out commencement and transition arrangements, including the ability of a code to specify different commencement dates for different purposes.

Section 105G: Withdrawing codes of practice about security measures

68. Section 105G sets out what the Secretary of State must do before and after withdrawing a code of practice.
69. Subsection (1) states that before withdrawing a code of practice, the Secretary of State must publish notice of the proposal and must consult about the proposal with Ofcom, providers to whom the draft would apply, and other persons as appropriate.
70. Subsection (2) states that where the Secretary of State withdraws a code of practice they must publish notice of the withdrawal and lay the notice before Parliament.

71. Subsections (3) and (4) set out the withdrawal arrangements, including the ability of a code to specify different withdrawal dates for different purposes.

Section 105H: Effects of codes of practice about security measures

72. Subsection (1) makes clear that codes are guidance and that a failure to act in accordance with their provision does not of itself make a provider liable to legal proceedings. When determining any question in legal proceedings, the court must take into account any provisions of the code which were in force at the time and appear relevant (subsection (2)).
73. Subsection (3) provides that Ofcom must take a code provision into account in determining any question while carrying out its relevant functions, where such provision is in force at the time and appears relevant. The list of relevant functions is set out at subsection (4).

Section 105I: Duty to explain failure to act in accordance with code of practice

74. Section 105I allows Ofcom to notify a provider where Ofcom deems it is failing or has failed to act in accordance with a code. The notification must set out how the provider is suspected to have contravened the code and direct the provider to give a statement in response. In its statement, the provider must either confirm or deny Ofcom's suspicions and give a supporting explanation.

Clause 4: Informing others of security compromises

Summary

75. This clause places new duties on providers to report security incidents to Ofcom and inform the users of telecoms networks and services of the associated risks. The clause is designed to transpose the intent of the security aspects of the European Electronic Communications Code (EECC).

Details of the Clause

76. The clause inserts new sections 105J to 105L into the 2003 Act.

Section 105J: Duty to inform users of risk of security compromise

77. Section 105J places a duty on providers to take reasonable steps to inform users about security compromises or where there is a significant risk of a security compromise occurring and the user may be adversely affected as a result. Specifically, the provider must inform the user about the existence of the risk, the nature of the security compromise, the steps which could reasonably be taken by users in response, and the name and contact details of a person who may provide further information (subsection (3)).

Section 105K: Duty to inform Ofcom of security compromise

78. The intention of Section 105K is to increase the reporting of security incidents by providers to

Ofcom. This will give Ofcom a better understanding of the security risks across the telecoms industry.

79. Subsection (1) places a duty on providers to inform Ofcom as soon as reasonably possible of any security compromise that:
- has a significant effect on the network or service; or
 - involves unauthorised access to or interference with the network or service so that a person is put in a position to bring about a security compromise that could significantly affect the network or service.
80. The wording of subsection (1)(b) is designed to ensure the reporting of ‘pre-positioning’ attacks that do not at the time of the attack affect the network or service, but do allow access to a network that could result in future security compromises.
81. Subsection (2) states that in determining whether the effect of a security compromise is, or could be, significant a number of factors should be taken into account, such as the number of people who are, or might be, affected.

Section 105L: Powers of Ofcom to inform others of security compromise

82. Section 105L applies where Ofcom considers that there is a risk of a security compromise occurring or a security compromise has occurred. The circumstances in which Ofcom must inform the Secretary of State of the above are set out in subsection (2).
83. In this situation, Ofcom must inform the Secretary of State of the above where the security compromise could (or already has had) specified serious consequences, such as a serious threat to national security (subsection (2)).
84. Ofcom may still inform the Secretary of State that there is a risk of a security compromise occurring or a security compromise has occurred even where there is no duty to do so (subsection (3)).
85. Subsection (4) identifies additional groups or organisations which Ofcom may inform about security compromises, namely network or service users, providers, overseas regulators and the European Union Agency for Cybersecurity.
86. Subsection (5) allows Ofcom to inform network or service users of measures that they can take to prevent, remedy and mitigate the adverse effects of the security compromises.
87. Subsection (6) allows Ofcom to direct providers to take steps to inform users (or previous users) of the risk of (or occurrence of) a security compromise and measures that they can take to prevent, remedy and mitigate the adverse effects.
88. Subsection (7) allows Ofcom, if they consider it to be in the public interest, to inform the public (either directly or via a provider) about the risk of (or occurrence of) the security

compromises and the protective measures that may be taken.

89. Subsection (8) places a duty on providers to comply with a direction given under this section within the reasonable period specified in the direction.
90. Subsection (9) defines “overseas regulator” (as used in 105K(4)) as any person who under the law of a country outside the United Kingdom has functions that correspond to the functions of Ofcom in relation to networks and services.

Other provisions

91. Subsection (3) of clause 4 provides for an amendment of section 393(6) of the 2003 Act so that nothing in that section prevents the disclosure of information under 105L.

Clause 5: General duty of Ofcom to ensure compliance with security duties

Summary

92. This clause places a duty on Ofcom to ensure that providers comply with their security duties under sections 105A, 105B, 105C, 105D, 105J and 105K.

Details of the Clause

93. The clause inserts new section 105M into the 2003 Act.

Section 105M: General duty of Ofcom to ensure compliance with security duties

94. Section 105M requires Ofcom to seek to ensure that providers comply with the security duties imposed on them by sections 105A, 105B, 105C, 105D, 105J and 105K.

Clause 6: Powers of Ofcom to assess compliance with security duties

Summary

95. This clause sets out the powers of Ofcom to assess providers’ compliance with their security duties. It permits Ofcom to issue assessment notices that require providers to do various things, such as carry out tests and permit an authorised person to enter their premises. The use of assessment notices will be a key means of collecting data for assessing compliance with the security duties. The costs of carrying out an assessment will be borne by the provider.

Details of the Clause

96. The clause inserts new sections 105N to 105R into the 2003 Act.

Section 105N: Power of Ofcom to assess compliance with security duties

97. Subsection (1) gives Ofcom the power to carry out, or commission others to carry out, an assessment of whether a provider is complying with (or has complied with) the security duties in sections 105A, 105B, 105C, 105D, 105J and 105K.
98. Subsection (2) imposes a duty on providers to cooperate with an assessment. This would include not doing anything to disrupt an assessment, such as destroying documents to which access is sought or interfering with testing required by an assessment notice. The costs of an assessment will be borne by the provider.

Section 105O: Power of Ofcom to give assessment notices

99. Subsection (2) provides Ofcom with the power to give providers an assessment notice for the purpose of carrying out an assessment under section 105N. It sets out what an assessment notice may require a provider to do. Examples include carrying out specified tests, arranging for another person to carry out specified tests, and making people available for interview. It also includes permitting authorised persons to enter specified premises for various purposes, such as to observe any relevant operations taking place. The specified premises cannot be domestic premises (subsection (5)).
100. Subsection (3) provides that the tests required by an assessment notice can include tests of premises and/ or persons involved in the provision of the network or service.
101. Subsection (4) provides that a test required by an assessment notice may include tests which risk causing a security compromise, loss to a person or damage to property, but only if the test uses techniques which might be expected to be used by a person seeking to cause a security compromise. This includes 'penetration testing' and 'red teaming exercises'.
102. Subsection (6) ensures that an assessment notice may not require the provider to take actions that would violate legal privilege.
103. Subsection (7) requires the assessment notice to set out the times at which each duty in the notice must be complied with. An assessment notice cannot require a provider to do anything before the end of the period within which the notice can be appealed, namely two months from the date of the notice in accordance with the Competition Appeal Tribunal Rules 2015. If a provider appeals an assessment notice it does not need to comply with the notice until the appeal is resolved.
104. Subsection (10) requires an assessment notice to provide information about the consequences of a failure to comply with it and the right of appeal.
105. Subsection (11) permits Ofcom to cancel a notice or make it less onerous by giving notice to the provider.

Section 105P: Assessment notices: urgency statements

106. Section 105P allows Ofcom to issue an assessment notice which requires that the provider must comply with a duty urgently. Such a notice must explain why this is the case and inform the provider of the right to make an application under section 105Q.
107. Subsection (2) sets out the effect of an urgency statement. The usual rules regarding the timeframe for complying with a duty and how this may be affected by an appeal, as set out under subsections 105O(8) and (9), do not apply to duties which must be complied with urgently. Instead, the relevant rules are set out at subsections 105P(3) and (4).
108. Subsections (3) provides that an assessment notice cannot require the provider to comply with an urgent duty at a time that falls (or a period that begins) within 14 days of the notice being issued.
109. Subsection (4) states that, where an urgent duty is a duty which involves permitting an authorised person to enter specified premises or concerns the provision of documents (i.e. duties under subsection (2)(d) to (k)) and the obligation to comply with the duty is appealed within 14 days of the notice being issued, the provider does not need to comply with the duty until the appeal is resolved.

Section 105Q: Assessment notices: applications in respect of urgency statements

110. Section (2) provides that, where a provider is obliged to comply with a duty urgently, it may apply to the court (i.e. the High Court or Court of Session) for an order that the duty does not need to be complied with urgently, and/ or a change to the time at which (or period within which) the duty must be complied with.

Section 105R: Assessment notices: information about entering premises

111. Section 105R requires Ofcom to publish a statement which sets out the number of occasions on which premises have been entered pursuant to the duty imposed under section 105O(2)(d) in its annual report.

Other provisions

112. Subsection (3) of clause 6 amends section 135 of the 2003 Act to add the act of carrying out an assessment under this section as a particular purpose for which Ofcom may require information.
113. Subsection (4) of clause 6 amends Schedule 8 of the 2003 Act so that a decision that a duty must be complied with urgently (pursuant to section 105P(1)(b)) is not subject to appeal to the Competition Appeals Tribunal.

Clause 7: Powers of Ofcom to enforce compliance with security duties

Summary

114. This clause sets out the powers of Ofcom to enforce the security duties. This includes setting out penalties for non-compliance.

Details of the Clause

115. The clause inserts new sections 105S to 105V into the 2003 Act.

Section 105S: Enforcement of security duties

116. Subsection (1) states that sections 96A to 100, 102 and 103 of the 2003 Act, which apply to contraventions of conditions set under section 45, also apply in relation to a contravention of a security duty. In summary:

- Section 96A allows Ofcom to issue a notification to a person they reasonably consider to have contravened or be contravening a condition set under section 45. Subsection 96A(2) lists the points that a notification must specify.
- Section 96B sets out the requirements for penalties which may be included in a notification under section 96A, including the maximum amount of a daily penalty (subsection (5)).
- Section 96C provides for the enforcement of notifications given under section 96A.
- Section 97 sets out the amount of a penalty given under section 96A. The maximum amount of a penalty (other than a penalty for a continuing contravention) is 10 percent of the turnover of the person's business (subsection (1)).
- Section 98 gives Ofcom the power to deal with urgent cases where they are entitled to give a notification under section 96A. This includes the power to suspend or restrict the contravening provider's entitlement to provide networks or services (subsection 98(4)).
- Section 99 sets out the process which must be followed by Ofcom after they have given a direction under subsection 98(4).
- Section 100 concerns the suspension of service provision for contravention of conditions.
- Section 102 sets out the procedure for directions under section 100.
- Section 103 concerns the enforcement of decisions under sections 98 and 100.

117. Subsection (2) provides that this section is subject to section 105T, which concerns the enforcement of security duties and the amount of penalties.

118. Subsection (3) explains that "security duty" means a duty imposed by sections 105A, 105B, 105C, 105D, 105I, 105J, 105K, 105L(6), (7)(c) and (8), 105N(2)(a) and 105O.

Section 105T: Enforcement of security duties: amount of penalties

119. This section sets out the penalties for continuing non-compliance with security duties in the Bill, and gives the Secretary of State a regulation making power to amend those penalties.

120. Subsection (1) states that the penalty for continuing non-compliance with a security duty, other than the duty under 105I, is a daily penalty of up to £100,000.
121. Subsection (2) states that the penalty for continuing non-compliance with the security duty imposed by 105I is a daily penalty of up to £50,000.
122. Subsection (3) states that the maximum penalty for a contravention of the security duty imposed by 105I (not including continuing contraventions) is £10 million.
123. Subsection (4) gives the Secretary of State a power to amend the amounts set out in subsections (1), (2), and (3).
124. Subsection (5) states that regulations made under this section must be laid before Parliament in draft and approved by a resolution in each House.

Section 105U: Enforcement of security duties: proposal for interim steps

125. Section 105U allows Ofcom to propose interim steps to a provider pending the commencement or completion of enforcement action described under section 105S.
126. Subsection (1) sets out the conditions which must be met before Ofcom may propose interim steps to a provider, namely:
 - there are reasonable grounds for believing that the provider has contravened or is contravening a security duty under sections 105A, 105B, 105C or 105D;
 - Ofcom has not yet commenced enforcement action (under section 96A) or completed enforcement action (under section 96C(2)(a) or (b));
 - there are reasonable grounds for believing either, or both that a security compromise has occurred or there is an imminent risk of a security compromise occurring;
 - it is reasonable to require the provider to take interim steps given the seriousness or likely seriousness of the security compromise.
127. Where the above conditions are met, subsection (2) allows Ofcom to give a notification to the provider setting out, amongst other things, the interim steps which Ofcom think the provider should take pending the completion of enforcement action.
128. Subsection (3) provides that commencement by Ofcom of enforcement action means the giving of a notification under section 96A, and completion of enforcement action means the taking of action under section 96C(2)(a) or (b).
129. Subsection (4) sets out the nature of the “interim steps” which may be required of a provider, such as preventing or limiting the adverse effects of a security compromise.

Section 105V: Enforcement of security duties: direction to take interim steps

130. Section 105V provides that, after Ofcom has given a provider a notification under section 105U, it must allow the provider an opportunity to make representations in response. Ofcom

may only direct the provider to take the interim steps once the period allowed for representations is over (subsection (2)).

131. Subsection (3) states that Ofcom may only direct a provider to take interim steps if they are satisfied that:
- there are reasonable grounds for believing that a contravention has occurred;
 - there are reasonable grounds for believing that a security compromise has occurred as a result of the contravention and/or there is an imminent risk of a security compromise occurring as a result of the contravention; and
 - it is reasonable to give the direction, given the seriousness or likely seriousness of the compromise or potential compromise.
132. Subsection (4) states that a direction to take interim steps must include a statement of reasons.
133. Subsection (5) states that a direction must set out the time period within which each interim step must be taken.
134. Subsection (6) states that a direction cannot require a provider to take interim steps after the completion of enforcement action by Ofcom.
135. Subsection (7) requires Ofcom to commence or complete enforcement action as soon as reasonably practicable after a direction to take interim steps has been given.
136. Subsection (8) states that a direction may at any time be revoked by Ofcom or varied to make it less onerous.
137. Subsection (9) states that a provider must comply with a direction given to them to take interim steps under subsection (2)(a).
138. Subsection (10) states that the duty to comply with directions under this section is enforceable in civil proceedings by Ofcom.

Clause 8: Civil liability for contravention of security duties

Summary

139. This clause makes provision for civil liability for contravention of security duties.

Details of the Clause

140. The clause inserts new section 105W into the 2003 Act.

Section 105W: Civil liability for breach of security duty

141. Section 105W makes the contravention of specified security duties actionable in civil proceedings where the breach of the duty causes loss or damage.

142. Subsection (1) provides that the security duties placed on providers under sections 105A, 105B, 105C, 105D and 105J are owed to every person who may be affected by a contravention
143. Subsection (3) provides that a person who suffers loss or damage as the result of a breach of the above security duties may bring legal proceedings in respect of the breach. Subsection (5) provides that it is a defence for a provider to show that they took all reasonable steps and exercised all due diligence to avoid contravening the duty.
144. Subsection (4) provides that a person may also bring legal proceedings where they have suffered loss or damage as the result of an act which induces a breach of duty or interferes with its performance. The act must be done with the intention that it will cause the person to suffer loss.
145. Subsection (6) provides that Ofcom must consent to the bringing of proceedings under this section, which may be subject to conditions relating to the conduct of proceedings (subsection 7).

Clause 9: Relationship Between Security Duties and certain other duties etc

Summary

146. This clause addresses the relationship between the security duties created by the bill, and duties under other legislation and certain other conduct.

Section 105X: Relationship between security duties and certain other duties etc

147. Subsection (1) provides that a security duty (as defined in subsection (2)) does not apply in so far as compliance with the duty would result in a failure by the provider comply with a duty or prohibition imposed by an enactment mentioned in 105A(4) or prevent the provider from undertaking certain other conduct. This includes, for instance, assisting the police in giving effect to a warrant or authorisation that has been issued under an enactment listed in 105A(4).

Clause 10: Statement of policy on ensuring compliance with security duties

Summary

148. This clause requires Ofcom to publish a statement of policy explaining how they will ensure compliance with the security duties.

Details of the Clause

149. The clause inserts new section 105Y into the 2003 Act.

Section 105Y: Statement of policy on ensuring compliance with security duties

150. Subsection (1) requires Ofcom to prepare and publish a statement setting out their general policy regarding how they will exercise their various powers to ensure that providers comply with their security duties (see sections 105I and 105M to 105V).
151. Subsection (2) permits Ofcom to revise the statement as they think fit.
152. Subsection (3) requires Ofcom to publish their policy statement (and any revisions of the statement) in a manner which they consider will bring it to the attention of those who are likely to be affected by it.
153. Subsection (4) requires Ofcom to have regard to their statement when exercising their functions under sections 105I and 105M to 105V.

Other provisions

154. Subsection (3) of clause 10 amends Schedule 8 of the 2003 Act to ensure that Ofcom's decisions relating to the making or revising of a statement under this section are not subject to appeal by tribunal.

Clause 11: Reporting on matters related to security

Summary

155. This clause makes provision about reporting by Ofcom on matters relating to security, including a duty to provide an annual security report to the Secretary of State.

Details of the Clause

156. The clause inserts new section 105Z into the 2003 Act.

Section 105Z: Ofcom reports on security

157. Subsection (1) requires Ofcom to send periodic security reports to the Secretary of State as soon as practicable after the end of each reporting period. The reporting period is two years from the day on which the clause comes into force and each successive twelve-month period after this date.
158. Subsection (2) and (3) provide that a security report must contain information and advice which will assist the Secretary of State to formulate policy regarding the security of public electronic communication networks and services.
159. Subsection (4) sets out matters which must be included in a security report, such as information about the extent to which providers have complied with security duties during the reporting period.
160. Subsection (5) states that the security report must not include personal data (i.e. any

information relating to an identified or identifiable living individual).

161. Subsection (6) allows the Secretary of State to publish a security report or disclose it to any person or body discharging functions of a public nature in order to enable or assist the discharge of those functions.
162. Subsection (7) and (8) requires the Secretary of State to consider the need to keep confidential matters relating to the affairs of a particular body, the disclosure of which might seriously or prejudicially affect the interests of that body before publishing or disclosing a security report.

Other provisions

163. Subsection (3) of clause 11 amends section 134B of the 2003 Act so that Ofcom's reports on infrastructure under sections 134A and 134AA should deal with the extent to which providers are complying with their duties under sections 105A, 105B, 105C and 105D.
164. Subsection (4) of clause 11 allows Ofcom to require information from a person under section 135 of the 2003 Act for the purpose of preparing a report under section 105Z.
165. Subsection (5) of clause 11 ensures that nothing in section 393 prevents the publication or disclosure of a report under subsection 105Z(6).
166. Subsection (6) of clause 11 amends Schedule 8 of the 2003 Act to ensure that Ofcom's decisions relating to the making of a report under this section are not subject to appeal to the Competition Appeals Tribunal.

Clause 12: Powers to require and share information related to security

Summary

167. This clause sets out Ofcom's powers to require and share information concerning the security of public electronic communications networks and services.

Details of the Clause

168. Subsection (2) ensures that section 24B(2), which limits Ofcom's ability to provide certain information to the Secretary of State, does not prevent Ofcom from providing information which they consider may assist the Secretary of State with the formulation of policy in relation to the security of public electronic communications networks and services.
169. Subsection (3) amends section 135 so that:
 - Ofcom can require information from a person for the purpose of assessing the risk of a security compromise occurring (subsection (3)(a)).
 - The information which Ofcom can require from a person can include information concerning future developments of a public electronic communications network or

service that could have an impact on the security of the network or service (subsection (3)(b)).

- Ofcom can require a person to take actions to facilitate the provision of security information, such as obtaining and retaining such information (subsection (3)(c)). Security information is defined as information which Ofcom considers necessary for the purpose of carrying out their functions under sections 105M to 105Z (subsection (3)(d)).

170. Subsection (4) amends section 137 of the 2003 Act to state that Ofcom must provide reasons for putting a requirement on providers under 135(3C).

Clause 13: Appeals against security decisions of Ofcom

Summary

171. This clause concerns the disposal of appeals against certain security-related decisions made by Ofcom.

Details of the Clause

172. This clause amends section 194A of the 2003 Act, which concerns the disposal of appeals under section 192 by the Competition Appeal Tribunal. It inserts new subsections (2A) and (2B), which provide that when deciding an appeal against certain security-related decisions made by Ofcom, the Tribunal is to apply judicial review principles without taking any special account of the merits of the case. The effect of this is that, in such appeals, the Tribunal should not adopt a modified approach in light of provisions in EU law (specifically, Article 31 of Directive (EU) 2018/1972 which provide for “*the merits of the case*” to be “*duly taken in account*”).

Clause 14: Reviews of sections 1 to 13

Summary

173. This clause states that the Secretary of States must review sections 1 to 13 at least every five years.

Details of the Clause

174. Subsection (1) requires the Secretary of State to review the impact and effectiveness of sections 1 to 13.

175. Subsection (2) requires the Secretary of State to publish a report of each review and lay it before Parliament.

176. Subsection (3) requires the reports to be published at least every five years.

177. Subsection (4) states that the first report must be published within five years of the day on which the Act is passed.

Security of public electronic communications networks and services: designated vendor directions

Clause 15: Designated vendor directions

Summary

178. This clause gives the Secretary of State the power to give a direction to a public communications provider (“provider”) that imposes requirements on the provider’s use of goods, services or facilities supplied, provided or made available by a designated vendor. The sections in this clause set out when a direction may be given, the process to be followed, the types of requirements that a direction may impose and how such requirements may be varied or revoked.

Details of the Clause

179. The clause inserts new sections 105Z1 to 105Z7 into the 2003 Act.

Section 105Z1: Designated vendor directions

180. This section allows the Secretary of State to give a direction to a provider which imposes requirements on their use of goods, services or facilities supplied by a specified “designated vendor” as designated under section 105Z8.

181. Subsection (2) provides that the Secretary of State may only give a designated vendor direction if the Secretary of State considers it to be necessary in the interests of national security and that the requirements imposed by the direction are proportionate.

182. Subsection (3) states that requirements imposed by a direction may only apply with respect to the use of goods, services or facilities provided by a designated vendor in connection with certain purposes (as set out in subsection (4)), such as providing a public electronic communications network or service. The goods, services and facilities need only be used in connection with, rather than be necessary for, the provision of a public electronic communications network, service, or associated facility or the enabling of persons to make use of such networks or services, in order for requirements to be applied.

183. Subsections (5) requires a direction to specify which providers it applies to, the time at which it comes into force and the reasons for which it was given.

184. Subsection (6) states that the direction does not need to give reasons where the Secretary of State considers that doing so would be contrary to the interests of national security.

185. Subsection (7) imposes a duty on a provider in receipt of a direction to comply with the direction.

Section 105Z2: Further provision about requirements

186. This section provides further detail on the types of requirements that may be imposed on a provider's use of goods, services or facilities supplied by a designated vendor.
187. Subsection (2) outlines the types of requirements that may be imposed by a direction. Requirements may include, among other things, requirements to prohibit or restrict use of goods, services, or facilities supplied, provided, or made available by a designated vendor, and requirements to remove, disable and modify goods, services or facilities supplied, provided or made available by a designated vendor.
188. Subsections (3), (4), (5) and (6) further expand on the scope and flexibility of the requirements that may be imposed by a direction:
- For example, a requirement in a direction may refer to the source of the goods, services or facilities, the time at which goods, service or facilities were developed or produced, or the time at which goods, services or facilities were procured, supplied, provided or made available (subsection (4)(a)(b) and (c)).
 - A requirement may be imposed which only applies in certain circumstances (subsection (5)).
 - A designated vendor direction may provide for exceptions to a requirement (subsection (6)).
189. Subsections (7) and (8) state that a requirement in a direction must specify the period for compliance and that this period must be reasonable.

Section 105Z3: Consultation about designated vendor directions

190. This section sets out the requirement to consult before a designated vendor direction is given.
191. Subsection (1) requires the Secretary of State to consult providers and relevant vendors before giving a direction where this is reasonably practicable. This does not apply where such consultation would be contrary to the interests of national security (subsection (2)).

Section 105Z4: Notice of designated vendor directions

192. This section sets out when a designated vendor direction should also be sent to the designated vendor.
193. Subsection (1) requires a copy of a direction to be sent to the designated vendor specified in the direction where this is reasonably practicable. This does not apply where such actions would be contrary to the interests of national security (subsection (2)).
194. Subsection (3) allows the Secretary of State to exclude from a copy of a direction anything which might prejudice to an unreasonable degree any person's commercial interests or be contrary to the interests of national security if disclosed.

Section 105Z5: Variation and revocation of designated vendor directions

195. This section sets out when and how the Secretary of State may vary or revoke a direction.
196. Subsection (1) states the Secretary of State must periodically review directions.
197. Subsection (2) allows the Secretary of State to vary or revoke a direction or part of a direction.
198. Subsection (3) provides that a direction may only be varied if it is necessary in the interests of national security and the varied requirements are proportionate.
199. Subsection (4) requires the Secretary of State to consult the provider and designated vendor where reasonably practicable before varying a direction. This does not apply where such consultation would be contrary to the interests of national security (subsection (5)).

Section 105Z6: Notice of variation and revocation of designated vendor directions

200. This section sets out the notice requirements where the Secretary of State seeks to vary and/or revoke a designated vendor direction.
201. Subsection (1) requires the Secretary of State to notify providers when a direction is varied.
202. Subsections (2) requires the notice to specify how the direction is varied, the time at which the varied requirements come into force and the reasons for the variation.
203. Subsection (3) provides that reasons do not need to be given where the Secretary of State considers that doing so would be contrary to the interests of national security.
204. Subsection (4) states that the Secretary of State must send a copy of the notice to the relevant designated vendor where this is reasonably practicable. This does not apply where doing so would be contrary to the interests of national security (subsection (5)).
205. Subsection (6) allows the Secretary of State to exclude from a copy of a notice anything which might prejudice to an unreasonable degree any person's commercial interests or be contrary to the interests of national security if disclosed
206. Subsections (7) to (11) replicate in part the subsections above but in relation to notices of revocation rather than variation. Notice of a revocation must be given to providers and designated vendors who were subject to the direction as it had effect before the revocation, providing this would not be contrary to interests of national security.

Section 105Z7: Designated vendor directions: plans for compliance

207. This section gives the Secretary of State the power to require providers to prepare and provide a plan to the Secretary of State setting out the steps the provider intends to take to comply

with a designated vendor direction. The Secretary of State may also require this plan to be provided to Ofcom.

Clause 16: Designation notices

Summary

208. This clause gives the Secretary of State the power to designate vendors for the purposes of issuing a designated vendor direction. The sections in this clause outline the factors the Secretary of State will consider before issuing a designation notice, describe the process that will be followed and describe the way in which designation notices may be amended or revoked.

Details of the Clause

209. The clause inserts new sections 105Z8 to 105Z10 into the 2003 Act.

Section 105Z8: Designation notices

210. This section sets out the Secretary of State's power to designate vendors for the purposes of issuing a designated vendor direction. It lists the primary factors that may be taken into account when considering whether or not to designate a vendor.

211. Subsections (1) to (3) allow the Secretary of State to issue a notice which designates a person (or persons) for the purposes of a designated vendor direction (see sections 105Z1 to 105Z7) providing that the Secretary of State considers it is necessary in the interests of national security.

212. Subsection (4) lists the principal matters which the Secretary of State may have regard to when considering whether to designate a person under subsection (1). There are a wide range of matters, which include the nature of the goods, services or facilities supplied, the reliability of such products, the identity of the persons who own or control the person being considered for designation, and the country or territory in which the registered office or any place of business of the person being considered for designation is located.

213. Subsection (5) states that a designation notice must specify the reasons for designation. This does not apply where the Secretary of State considers that it would be contrary to the interests of national security (subsection (6)).

Section 105Z9: Further provision about designation notices

214. This section sets out the requirement to consult persons before and notify them after designation takes place under section 105Z8.

215. Subsection (1) requires the Secretary of State to consult the persons proposed to be designated where reasonably practicable. This does not apply where the Secretary of State considers that it would be contrary to the interests of national security (subsection (2)).

216. Subsection (3) requires the Secretary of State to serve a designation notice on the designated person(s) where this is reasonably practicable.

Section 105Z10: Variation and revocation of designation notices

217. This section sets out the Secretary of State's power to vary or revoke a designation notice given under section 105Z8 and the associated requirements for consultation and notification.

218. Subsection (1) requires the Secretary of State to periodically review designation notices.

219. Subsection (2) allows the Secretary of State to vary or revoke a designation notice, although a notice may only be varied if it is in the interests of national security (subsection (3)). Before varying a notice, the Secretary of State must, where reasonably practicable, consult the person who is proposed to be designated in the varied notice (subsection (4)), unless this would be contrary to the interests of national security (subsection (5)).

220. Subsection (6) requires the Secretary of State, where reasonably practicable, to notify persons about a variation if they are designated in the varied notice or were designated before the variation.

221. Subsection (7) requires the notice of variation to state how the designation is varied, the time when the variation, or each of them, comes into force and the reasons for the variation. Reasons do not need to be provided where this would be contrary to the interests of national security (subsection (8)).

222. Subsections (9) and (10) replicate in part the provisions relating to giving notice of variation and what the notice must specify, but for a notice of revocation rather than variation.

Clause 17: Laying before Parliament

Summary

223. This clause requires the Secretary of State to lay before Parliament copies of documents connected with the designation of vendors and designated vendor directions produced under sections 105Z1 to 105Z10.

Details of the Clause

224. The clause inserts new section 105Z11 into the 2003 Act.

Section 105Z11: Laying before Parliament

225. Subsection (1) requires the Secretary of State to lay before Parliament copies of designated vendor directions and designation notices, as well as notices of variation and revocation. This does not apply where the Secretary of State considers that doing so would be contrary to the interests of national security (subsection (2)).
226. Subsection (3) allows the Secretary of State to exclude from what is laid before Parliament anything that might prejudice to an unreasonable degree any person's commercial interests or be contrary to the interests of national security if published.

Clause 18: Monitoring of designated vendor directions

Summary

227. This clause gives the Secretary of State the power to issue a monitoring direction to Ofcom requiring Ofcom to obtain information relating to a provider's compliance with a designated vendor direction and to report this information to the Secretary of State. This clause also makes provision for the Secretary of State to publish or disclose Ofcom's reports.

Details of the Clause

228. The clause inserts new sections 105Z12 and 105Z13 into the 2003 Act.

Section 105Z12: Monitoring of designated vendor directions

229. Subsection (1) enables the Secretary of State to give Ofcom a monitoring direction requiring Ofcom to obtain information relating to a provider's compliance with a designated vendor direction (given under section 105Z1) and to provide information in a report to the Secretary of State. Ofcom will be engaged in information collection and provision only. The Secretary of State will be responsible for compliance decisions.
230. Subsection (2) sets out the nature of the information which Ofcom may be required to obtain under subsection (1).
231. Subsection (3) states that a monitoring direction may prescribe the form and content of the report to be provided by Ofcom under subsection (1). Ofcom may be required to set out their analysis in the report (subsection (4)) and may be required to provide the Secretary of State with separate reports on different matters, such as in relation to different direction requirements or in relation to plans (subsection 5).
232. Subsection (6) states that Ofcom may be required to report to the Secretary of State at specified times and/or intervals.
233. Subsection (7) requires Ofcom to use their powers to obtain information in an appropriate manner when preparing a report under this section.

234. Subsection (8) allows the Secretary of State to give Ofcom more than one monitoring direction in relation to a designated vendor direction.
235. Subsection (9) allows the Secretary of State to vary or revoke a monitoring direction.
236. Subsection (10) states that the Secretary of State is required to consult with Ofcom before issuing or varying a monitoring direction.

Section 105Z13: Reports made under monitoring directions

237. Subsection (1) of section 105Z13 allows the Secretary of State to publish or disclose a report provided by Ofcom under section 105Z12.
238. Subsection (2) of section 105Z13 requires the Secretary of State to consider the need to keep certain matters confidential before publishing or disclosing a report. The definition of a confidential matter is set out in subsections (3) and (4).

Other provisions

239. Subsection (3) of clause 18 amends section 135 of the 2003 Act so that Ofcom may require information from a person for the purpose of preparing a report required by a monitoring direction under section 105Z12.
240. Subsection (5) of clause 18 amends section 393 so that nothing in that section prevents the publication or disclosure of a report under section 105Z13(1).
241. Subsection (6) of clause 18 amends Schedule 8 so that decisions to require the provision of information for the purposes of preparing a monitoring report under section 105Z12 are not subject to appeal to the Competition Appeal Tribunal.

Clause 19: Monitoring directions: inspection notices

Summary

242. This clause gives Ofcom the power to give providers inspection notices for the purpose of obtaining information that would assist the Secretary of State in determining whether a provider has complied, or is complying with requirements imposed by a designated vendor direction. It sets out how the power can be exercised and how compliance can be enforced.

Details of the Clause

243. The clause inserts new sections 105Z14 to 105Z17 into the 2003 Act.

Section 105Z14: Power of Ofcom to give inspection notices

244. Subsection (2) allows Ofcom to give inspection notices to providers where the Secretary of State has given Ofcom a monitoring direction under section 105Z12. Ofcom may only exercise

this power for the purpose of obtaining information which they are required to obtain by a monitoring direction under section 105Z12. Inspection notice powers can only be used to gather information from providers that directly relates to assisting the Secretary of State with determining whether a provider has complied, or is complying with requirements imposed by a designated vendor direction.

245. An inspection notice may impose a duty on the provider to take any number of actions set out in subsection (4), which include a duty to make persons available for interview and a duty to permit authorised persons (e.g. Ofcom employees) to enter specified premises (although not domestic premises (subsection (5))).
246. Subsection (6) states that an inspection notice may not require the provider to take actions that would violate legal privilege or to disclose information or documents that are prohibited from being disclosed by or under an enactment mentioned in section 105A(4).
247. Subsection (7) states that an inspection notice must state the time in which each duty imposed by the notice must be complied with. An inspection notice cannot require a provider to do anything for a period of 28 days from the date the notice is given (subsection (8)).

Section 105Z15: Inspection notices: further provision

248. Subsection (1) states that an inspection notice must set out the consequences of failing to comply with a duty imposed by the notice.
249. Subsection (2) states that Ofcom may revoke an inspection notice or vary it to make it less onerous by notifying the provider.
250. Subsection (3) states that a provider may not act in a way which might defeat the purpose of an inspection notice once the notice is given, for example by destroying relevant documents.
251. Subsection (4) states that the reasonable costs incurred by Ofcom in connection with obtaining information under an inspection notice must be paid by the provider.

Section 105Z16: Inspection notices: information about entering premises

252. This section requires Ofcom to state in their annual report the number of occasions premises have been entered that year pursuant to a requirement under an inspection notice.

Section 105Z17: Inspection notices: enforcement of compliance

253. Subsection (1) states that sections 96A to 100, 102 and 103 of the 2003 Act, which apply to contraventions of conditions set under section 45, also apply in relation to a contravention of a duty imposed by an inspection notice (for an explanation of these sections, see the explanatory notes for section 105S above). Subsection (1) is subject to subsections (3) and (4), which provide for the maximum penalties that may be imposed in relation to a contravention

of a duty imposed by an inspection notice, or a contravention of the duty not to act in a way that might defeat the purpose of an inspection notice.

254. Subsection (5) gives the Secretary of State a power to amend the amounts of maximum penalty set out in subsections (3) and (4). Regulations made using this power must be laid before Parliament in draft and approved by a resolution in each House (subsection (6)).

Other provisions

255. Subsection (5) of clause 19 amends Schedule 8 of the 2003 Act so that a decision to impose a duty under an inspection notice (section 105Z14) is not subject to appeal to the Competition Appeal Tribunal.

Clause 20: Powers of Secretary of State to enforce compliance with designated vendor directions etc

Summary

256. This clause gives the Secretary of State the power to enforce compliance with designated vendor directions under section 105Z1. The clause sets out the process to be followed where the Secretary of State considers that a provider is not complying with the requirements of a direction. It outlines the penalties that can be imposed for non-compliance and how they will be enforced.

Details of the Clause

257. The clause inserts new sections 105Z18 to 105Z21 into the 2003 Act.

Section 105Z18: Notification of contravention

258. Subsection (1) allows the Secretary of State to issue a notification of contravention to a provider where there are reasonable grounds to suspect the provider has contravened a requirement imposed by a designated vendor direction under section 105Z1 or a requirement to provide a plan under section 105Z7.
259. Subsection (2) outlines what a notification of contravention should contain. This includes the Secretary of State's determination, the deadline for representations in response, the steps the Secretary of State considers the provider should take to comply with the requirement or remedy the contravention, and the proposed penalty.
260. Subsections (3) and (4) state that a notice of contravention can be given in respect of more than one contravention, and that where this is the case, a separate penalty may be specified for each contravention.
261. Subsections (5), (6) and (7) provide that, where a contravention is continuing, a notification may be given for any period during which the contravention occurred. Only one penalty may be specified in a notification for a continuing contravention in respect of the period of

contravention specified in the notification, although a daily penalty may also be specified for each day the contravention continues after: a confirmation decision has been given under section 105Z20 which requires immediate action; or the expiry of any period specified in the confirmation decision for compliance.

262. Subsection (8) provides that the Secretary of State may give a further notification in respect of the same contravention in certain circumstances, such as if the earlier notification has been withdrawn without a penalty having been imposed in respect of the notified contravention.

Section 105Z19: Amount of penalty

263. Subsection (1) requires a penalty specified under section 105Z18 to be appropriate and proportionate. The maximum amount is 10 percent of the turnover of the person's relevant business for the relevant period (subsection (2)), or, in the case of a penalty for a continuing contravention imposed under section 105Z18(7), £100,000 per day (subsection (3)).
264. Subsection (4) states that where the provider has contravened a requirement to provide a plan under section 105Z7, the maximum penalty is £10 million or, in the case of a continuing contravention, £50,000 per day.
265. Subsections (5) and (6) state that the Secretary of State may by regulations amend the maximum fixed and daily penalty amounts set out in this section by laying a draft of the regulations before Parliament, which needs to be approved by each House.
266. Subsection (7) states that for the purpose of calculating penalty amounts, the turnover of a person's relevant business for a specific period and what is to be treated as the relevant business are to be determined in accordance with the rules set out by order of the Secretary of State under section 97(3)(a) of the 2003 Act. Section 97(3)(a) provides that the turnover of a person's business shall be calculated in accordance with such rules as may be set out by order made by the Secretary of State.
267. Subsection (8) provides definitions for 'relevant business' and 'relevant period'.

Section 105Z20 Enforcement of notification

268. Subsections (1) and (2) provide that, where a provider has been given a notification of contravention under section 105Z18 and the period for making representations has expired, the Secretary of State may give the provider a decision which confirms the requirements in the notification ("a confirmation decision") or inform the provider that no further action will be taken.
269. Subsection (3) provides that a confirmation decision may not be given unless the Secretary of State is satisfied that the provider has contravened a requirement imposed by a designated

vendor direction under section 105Z18 or a requirement to provide a plan under section 105Z7.

270. Subsections (4) and (5) state that a confirmation decision must be given without delay and that it must include reasons for the decision.
271. Subsection (6) states that a confirmation decision may require the provider to immediately comply with the requirement being contravened and/ or remedy the consequences of the contravention, or specify a time period within which this must be done.
272. Subsection (7) states that the confirmation decision may require the provider, within a specified period of time, to pay the penalty specified in the notification, or a lesser penalty that the Secretary of State considers appropriate in light of any representations received or steps taken to comply with the requirement.
273. Subsection (8) requires the recipient of a confirmation decision to comply with it.
274. Subsection (9) states the Secretary of State may enforce a provider's duty in civil proceedings via an injunction, specific performance of a statutory duty or any other remedy or relief.

[Section 105Z21: Enforcement of penalty](#)

275. Subsections (2), (3) and (4) set out the approach to the enforcement of penalties imposed under section 105Z20 in different jurisdictions.
276. Subsection (5) provides further details on how a penalty imposed under section 105Z20 will be treated by the courts in England, Wales and Northern Ireland when recovery action is taken.

Clause 21: Urgent enforcement directions

Summary

277. This clause gives the Secretary of State the power to issue an urgent enforcement direction in serious cases. It sets out when and how this power may be used and enforced.

Details of the Clause

278. The clause inserts new sections 105Z22 to 105Z24 into the 2003 Act.

[Section 105Z22: Urgent enforcement direction](#)

279. Subsection (1) sets out the circumstances in which the Secretary of State may give an urgent enforcement direction. These are that: (a) there are reasonable grounds to believe that a person has contravened a requirement imposed by a designated vendor direction under section 105Z1 or a requirement not to disclose under section 105Z25; (b) the case is urgent; and (c) urgent action is appropriate.

280. Subsection (2) states that an urgent case is one which creates an immediate risk of (a) a serious threat to national security or (b) significant harm to the security of a public electronic communications network, service, or associated facility.
281. Subsection (3) sets out what an urgent enforcement direction must contain. For example, it must require the recipient to take steps that the Secretary of State considers appropriate for complying with the requirement or remedying the consequences of the contravention (subsection (4)).
282. Subsection (5) states that the requirement to give reasons for giving an urgent enforcement direction does not apply where the Secretary of State considers that specifying reasons in the direction would be contrary to the interests of national security.

Section 105Z23: Urgent enforcement direction: confirmation

283. Subsection (1) states that after giving an urgent direction the Secretary of State must confirm or revoke it as soon as reasonably practicable. The Secretary of State may modify the direction when confirming it (subsection (2)).
284. Subsection (3) states the criteria that must be met before the Secretary of State may confirm an urgent direction. In particular, there must be a contravention of a relevant requirement, and that contravention must have resulted in, or create, an immediate risk of (a) a serious threat to national security or (b) significant harm to the security of a public electronic communications network, service or associated facility.
285. Subsection (4) states that before confirming an urgent enforcement direction, the Secretary of State must notify the recipient and give them the opportunity to make representations.
286. Subsection (5) states what the notice confirming an urgent enforcement direction under subsection (4) must contain. In the case of giving reasons, this is subject to subsection (6) which states that the requirement for the Secretary of State to give reasons for confirming a direction and any modifications does not apply where the Secretary of State considers that specifying reasons in such a notice would be contrary to the interests of national security.
287. Subsection (7) states that after the Secretary of State has decided whether to confirm a direction it must notify the recipient as soon as reasonably practicable.

Section 105Z24: Urgent enforcement direction: enforcement

288. Subsection (1) states that the recipient of an urgent enforcement direction must comply with it.
289. Subsection (2) states that the duty to comply is enforceable in civil proceedings by an injunction, specific performance measure or other appropriate remedy or relief.

Clause 22: Requirement not to disclose

Summary

290. This clause gives the Secretary of State a power to require the recipients of certain documents given under clauses 15 to 21 not to disclose them if doing so would be contrary to the interests of national security. It also gives the Secretary of State the power to prevent disclosure of consultations. It makes provision for the enforcement of these powers by adopting and adapting the Secretary of State's powers to enforce compliance described at clause 20.

Details of the Clause

291. The clause inserts new sections 105Z25 and 105Z26 into the 2003 Act.

Section 105Z25: Requirement not to disclose

292. Subsections (1) and (2) give the Secretary of State the power to require the recipients of the following documents not to disclose their contents without the permission of the Secretary of State: designated vendor directions given under section 105Z1 and designation notices given under section 105Z8.
293. Subsections (3), (4), (5) and (6) give the Secretary of State the power to require the recipients of the following documents not to disclose their existence or contents without the permission of the Secretary of State: notifications of contravention under section 105Z18; confirmation decisions under section 105Z20; urgent enforcement directions under section 105Z22; or confirmation of urgent enforcement directions under section 105Z23.
294. Subsections (7) and (8) provide that the Secretary of State may only exercise the above power where the Secretary of State considers that it would be contrary to the interests of national security for the contents of (or, as the case may be, existence of) the document to be disclosed (except as permitted by the Secretary of State).
295. Subsection (9) gives the Secretary of State the power to require a person consulted about designated vendor directions or designation notices (or variations of the same) not to disclose anything about the consultation (or part of the consultation) without the permission of the Secretary of State. The Secretary of State may only exercise this power where the Secretary of State considers that it would be contrary to the interests of national security for these matters to be disclosed (subsection (10)).
296. Subsection (11) states that where a person is subject to a non-disclosure requirement, disclosure by an employee of that person or by a person engaged in the person's business will

be regarded as a disclosure by the person, unless they can show that they took all reasonable steps to prevent disclosure.

Section 105Z26: Enforcement of requirement not to disclose

297. This section makes provision for the enforcement of the requirement not to disclose information which may be imposed under section 105Z25.
298. Subsection (1) provides that the Secretary of State's powers to enforce compliance with designated vendor directions described at clause 20 also apply in relation to contraventions of a requirement not to disclose information imposed under section 105Z25.
299. Subsections (2) to (6) tailor the enforcement measures described at clause 20 for the purposes of this section by making various substitutions and insertions. Most of the amendments are practical changes which are necessary to make the enforcement provisions workable in the context of the requirement not to disclose. Subsection (3) provides that, for the purposes of this section, the maximum penalty is £10 million or, in the case of a continuing contravention, £50,000 per day.

Clause 23: Power of Secretary of State to require information etc

Summary

300. This clause gives the Secretary of State a power to require information from persons who are or have been providers, or any other person who appears to have information relevant to the exercise of the Secretary of State's functions under sections 105Z1 to 105Z26 of the Bill. The clause outlines the types of information that may be required, as well as the restrictions on this power and how it is to be enforced.

Details of the Clause

301. The clause inserts new sections 105Z27 to 105Z29 into the 2003 Act.

Section 105Z27: Power of Secretary of State to require information etc

302. Subsection (1) gives the Secretary of State the power to require a person to provide such information as may be reasonably required for the purpose of exercising the Secretary of State's functions under sections 105Z1 to 105Z26.
303. Subsection (2) lists the persons who may be required to provide information, namely persons who are or have been providers or any other person who appears to have information relevant to the Secretary of State's functions under sections 105Z1 to 105Z26.
304. Subsection (3) describes what the Secretary of State may require a person falling under subsection (2) to do. This includes produce, generate, obtain, collect, retain, process, collate or analyse information.

305. Subsection (4) describes the type of information which the Secretary of State can require persons to provide. It can include, among other things, information about the use or proposed use of goods, services or facilities supplied by a particular person or information about goods, services or facilities proposed to be supplied by a particular person.
306. Subsection (6) allows the Secretary of State to specify how and when persons must comply with a requirement to provide information.

Section 105Z28: Restrictions on imposing information requirements

307. Subsection (2) states that the Secretary of State must request information under section 105Z27 by way of a notice which (a) describes the information required and (b) sets out the reasons for requiring it.
308. Subsection (3) states that the Secretary of State may only impose a requirement under section 105Z27(3) by way of a notice which sets out the requirement and the Secretary of State's reasons for imposing it.
309. Subsection (4) states that the Secretary of State does not need to set out the reasons for requiring the information specified in an information notice where doing so would be contrary to the interests of national security.
310. Subsection (5) states that the Secretary of State must only require information under section 105Z27 where the demand is proportionate.
311. Subsection (6) states that the Secretary of State is not to impose a requirement on a person under 105Z27(3) (i.e. a requirement to produce, generate, obtain, collect, retain, process, collate or analyse information), except where the imposition of the requirement is proportionate to the use to which the information is to be put in carrying out the Secretary of State's functions.
312. Subsection (7) states that the requirement to provide information under section 105Z27 does not require a person to disclose information that is legally privileged.

Section 105Z29: Enforcement of information requirements

313. Subsection (1) provides that the Secretary of State's powers to enforce compliance with designated vendor directions described at clause 20 also apply in relation to the enforcement of information requirements under section 105Z27.
314. Subsection (2) provides that the maximum penalty for contraventions of an information request is £10 million or, in the case of a continuing contravention, £50,000 per day.

315. Subsection (3) gives the Secretary of State a power to change these amounts of maximum penalty by regulations. These regulations must be laid before Parliament that have to be approved by a resolution of each House.

Further amendments

Clause 24: Further amendments concerning penalties

Summary

316. This clause amends the 2003 Act in relation to the maximum amounts of penalties. It increases the maximum penalty which may be given for failing to provide information to Ofcom where Ofcom considers that the information is necessary for the purpose of carrying out their functions under sections 105L to 105Z, or preparing a report under section 105Z12.

Details of Clause

317. The clause inserts new section 139ZA into the 2003 Act.

Section 139ZA: Higher penalties for certain contraventions

318. Subsection (1) provides that where a person is given a notification of contravention under section 138 of the 2003 Act, there are two situations in which higher penalties apply:

- The first situation is where the proposed penalty is for a contravention of a requirement to provide information under section 135 and the information is necessary for Ofcom to carry out its functions under sections 105L to 105Z or to prepare a report under section 105Z12 (subsection (2)).
- The second situation is where the proposed penalty is for a contravention of a requirement imposed under subsection (3C) of section 135 (see clause 12(3)(c) of the Bill) (subsection (3)).

319. Subsection (4) sets out the higher penalty, namely a maximum penalty of £10 Million or £50,000 per day for a continuing contravention.

320. Subsection (5) gives the Secretary of State a power to change these amounts of maximum penalty by regulations. These regulations must be laid before Parliament that have to be approved by a resolution of each House (subsection (6)).

Clause 25: Further consequential amendments

321. This clause makes minor amendments to the 2003 Act.

Clause 26: Financial provisions

Summary

322. This clause sets out financial provisions.

Details of the Clause

323. The clause provides that any increase attributable to the Bill in the sums payable under any Act out of money provided by Parliament is also to be paid out of money provided by Parliament.

Clause 27: Extent

Summary

324. This clause explains the territorial extent of the provisions in the Bill.

Details of the Clause

325. The clause states that the Act will extend to England and Wales, Scotland and Northern Ireland.

Clause 28: Commencement

Summary

326. This clause explains when the provisions in the Bill will come into effect.

Details of the Clause

327. Subsection (1) lists the provisions that will come into force on the day on which the Act is passed.

328. Subsection (2) lists the provisions that will come into force two months after the Act is passed.

329. Subsection (3) lists the provisions that will come into force pursuant to separate commencement regulations, which may specify different dates for different purposes (subsection (4)).

Clause 29: Short Title

330. This clause states that the Act may be cited as the Telecommunications (Security) Act 2020.

Commencement

331. Clause 28 provides for the commencement of the provisions in this Bill.
332. Subsection (1) provides that the following provisions of the Bill will come into force on the day in which the Act is passed: clauses 1 and 2 (so far as they confer power to make regulations); clause 3 (so far as it confers power to issue codes of practice); and clauses 14, 25(1) and (3), 26, 27, 28 and 29.
333. Subsection (2) provides that clauses 15 to 24 will come into force at the end of the period of two months from the date the Act is passed.
334. Subsection (3) provides that the following provisions of the Bill will be brought into force by regulations made by the Secretary of State: clauses 1 to 3 (so far as not already in force), clauses 4 to 13, and clause 25(2).
335. Subsection (4) provides that different days may be appointed for different purposes.
336. Subsection (5) provides that the Secretary of State may by regulations made by statutory instrument make transitional, transitory or saving provision in connection with the coming into force of any provision of the Bill.

Financial implications of the Bill

337. The financial costs and benefits of the Bill have been set out in accompanying impact assessments. The following assessments have been made:
- Impact Assessment - The Telecommunications Security Bill 2020: telecoms security requirements
 - Impact Assessment - The Telecommunications Security Bill 2020: National Security powers in relation to high risk vendors.

Parliamentary approval for financial costs or for charges imposed

338. A money resolution is required for the bill. A money resolution is required where a bill authorises new charges on the public revenue - broadly speaking, new public expenditure.
339. There may be new public expenditure by the Secretary of State under various provisions of the bill. For instance, the Secretary of State will incur expenditure in connection with giving designated vendor directions under the sections inserted by clause 15 and taking enforcement action under the sections inserted by clause 20.

340. A ways and means resolution is also required for the bill. A ways and means resolution is required where a bill authorises new charges on the people - broadly speaking, new taxation or other similar charges.

341. New section 105N(2)(b) (inserted by clause 6) will impose a duty on a provider of a public electronic communications network or service to pay the cost incurred by Ofcom in connection with an assessment of the provider's compliance with certain duties imposed by the bill. New section 105Z15(4) (inserted by clause 18) will impose a duty on a public communications provider to pay the costs incurred by Ofcom in connection with obtaining information by means of inspection notice.

Compatibility with the European Convention on Human Rights

342. The Government considers that the Telecommunications (Security) Bill is compatible with the European Convention on Human Rights. Accordingly, the Minister in charge of the Bill has made the following statement under section 19(1)(a) of the Human Rights Act 1998: "In my view, the provisions of the Bill are compatible with the Convention rights."

Annex A – Scope

1. This Annex describes the scope of certain clauses of the Bill with reference to other sections of the 2003 Act.
2. Clauses 1 to 14 concern ‘providers of public electronic communications networks’ and ‘providers of public electronic communications services’. In these explanatory notes’ description of those clauses the term ‘provider’ has been used to describe both categories for ease of reference.
3. These terms are defined in the 2003 Act, in summary, as follows.
4. **Electronic communications network** is defined in section 32(1) of the 2003 Act as a transmission system for the conveyance, by the use of electrical, magnetic or electro-magnetic energy of signals of any description, and associated apparatus, software and stored data.
5. Examples of such networks include satellite networks, fixed networks (whether circuit- or packet-switched, and including the Internet) and mobile terrestrial networks and networks used for radio and television broadcasting, including cable TV networks.
6. **Electronic communications service** is defined (from 21 December 2020, when a new definition takes effect following transposition of the European Electronic Communications Code) in section 32(2) of the 2003 Act as an internet access service, a number-based interpersonal communications service, or any other service consisting in, or having as its principal feature, the conveyance of signals, provided by means of an electronic communications service except in so far as it is a content service.
7. Examples of such services include telecommunications services and transmission services in networks used for broadcasting.
8. Section 151 of the 2003 Act defines a public **electronic communications network** as an electronic communications network provided wholly or mainly for the purpose of making electronic communications services available to the public.

9. This definition includes networks or services that serve business customers and those who serve individual customers. This definition does not include 'private networks' that provide internal communications within a network.
10. Clause 15 provides that a 'designated vendor direction' may be given to a **public communications provider**. This term is defined in section 151 of the Communications Act 2003 as:
 - (a) a provider of a public electronic communications network;
 - (b) a provider of a public electronic communications service; or
 - (c) a person who makes available facilities that are associated facilities by reference to a public electronic communications network or a public electronic communications service.
11. In these explanatory notes, the term 'provider' has been used instead of public communications provider for ease of reference.
12. **Associated facility** is defined in section 32(3) of the 2003 Act as a facility, element or service which is available for use in association with an electronic communications network or service in order to make the provision of that network or service (or other services) possible, or to support the provision of other services.
13. Examples of such facilities include physical infrastructure of conditional access systems and electronic programme guides.

Annex B - Territorial extent and application in the United Kingdom

The Bill extends and applies to England and Wales, Scotland, and Northern Ireland. Telecommunications is a reserved matter and no Legislative Consent Motions are required for this Bill.⁶

Provision	Extends to E & W and applies to England?	Extends to E & W and applies to Wales?	Extends and applies to Scotland?	Extends and applies to Northern Ireland?
