Member’s explanatory statement

Under paragraph 10 of Schedule 3 the OEP may give a relevant public authority a decision notice if it is satisfied, on the balance of probabilities, that the authority has failed to comply with relevant environmental law, and it considers that the failure is serious. This amendment requires the decision notice to explain why the OEP considers that the failure is serious.

- (a) it is satisfied, on the balance of probabilities, that the authority has failed to comply with relevant environmental law, and
 - (b) it considers that the failure is serious.”
- Member’s explanatory statement**
This amendment provides that the OEP may only bring a review application against a relevant public authority if it is satisfied on the balance of probabilities that the authority has failed to comply with relevant environmental law, and it considers the failure is serious. This aligns the conditions for bringing a review application with the conditions for giving a decision notice.

The OEP may only bring a review application after it has given a decision notice. This amendment removes the OEP’s power to bring a review application in relation to conduct occurring after a decision notice is given, which is similar or related to the conduct described in the decision notice.

- Member’s explanatory statement**
This amendment provides that the OEP may only bring a judicial review under paragraph 13 of Schedule 3, rather than proceeding by way of information notice, decision notice and review application, in urgent cases. Amendments 15 and 16 define what is meant by urgent.

- (a) are in respect of an application for judicial review, and
 - (b) relate to an alleged failure by a relevant public authority to comply with relevant environmental law (however the allegation is framed in those proceedings).
- (6) If the OEP considers that the alleged failure, if it occurred, would be serious, it may apply to intervene in the proceedings (whether it considers that the relevant public authority has, or has not, failed to comply with relevant environmental law).”

Member’s explanatory statement

This amendment provides that the OEP may apply to intervene in a judicial review relating to an alleged failure by a relevant public authority to comply with relevant environmental law only if it considers that the failure, if it occurred, would be serious. If that test is satisfied, it may apply to intervene whether or not it considers that the authority has in fact failed to comply with relevant environmental law.
