To move the following Clause—

“Obligation on integrated care boards to ensure appropriate uptake of all NICE approved products according to population need

- (1) An integrated care board must promote uptake of all NICE approved medicines and medical devices in accordance with the need of the population it serves.

- (2) An integrated care board must, in each financial year, prepare a report on the uptake of all NICE approved medicines and medical devices, including the number of patients that have accessed each product.”

Member’s explanatory statement

This new clause would require ICBs to ensure that all NICE approvals are available and promoted to their population, and report on this uptake annually.

To move the following Clause—

“Cap on private charges

- (1) Section 43 of the National Health Service Act 2006 is amended as follows.
- (2) Leave out subsection (2A) and insert—
- “(2A) An NHS foundation trust does not fulfil its primary purpose if the proportion of the total income of the NHS foundation trust in any financial year derived from private charges is greater than the proportion of the total income of the NHS trust derived from such charges in the financial year ending 31 March 2022.
- (2B) For the purposes of subsections (2A) and (2C) “private charges” means charges imposed in respect of goods and services provided to patients other than patients being provided with goods and services for the purposes of the health service.
- (2C) An NHS foundation trust does not fulfil its principal purpose if in any year the proportion of the total income derived from private charges is greater than the proportion of the total income of the NHS trust derived from such charges in the previous financial year unless—
- (a) the appropriate integrated care boards and integrated care partnerships have been notified of the intention that this increase will occur;
 - (b) that intention has been published with a statement of the reasons why it is considered to benefit the NHS;
 - (c) the appropriate integrated care boards and integrated care partnerships have used reasonable endeavours to consider any responses to the publication mentioned in (b); and
 - (d) any integrated care board which has commissioned services from the trust, and the integrated care partnership for the board, have informed the NHS foundation trust that the proposed increase is justified.””

Member's explanatory statement

This new clause would prevent NHS foundation trusts increasing their income from private patients year on year unless the conditions set in subsection (2C) are met.
