Secretary Nadine Dorries

NC19

To move the following Clause—

“Duties to protect news publisher content

- (1) This section sets out the duties to protect news publisher content which apply in relation to Category 1 services.
- (2) Subject to subsections (4), (5) and (8), a duty, in relation to a service, to take the steps set out in subsection (3) before—
 - (a) taking action in relation to content present on the service that is news publisher content, or
 - (b) taking action against a user who is a recognised news publisher.
- (3) The steps referred to in subsection (2) are—
 - (a) to give the recognised news publisher in question a notification which—
 - (i) specifies the action that the provider is considering taking,
 - (ii) gives reasons for that proposed action by reference to each relevant provision of the terms of service,
 - (iii) where the proposed action relates to news publisher content that is also journalistic content, explains how the provider took the importance of the free expression of journalistic content into account when deciding on the proposed action, and
 - (iv) specifies a reasonable period within which the recognised news publisher may make representations,

- (b) to consider any representations that are made, and
 - (c) to notify the recognised news publisher of the decision and the reasons for it (addressing any representations made).
- (4) If a provider of a service reasonably considers that the provider would incur criminal or civil liability in relation to news publisher content present on the service if it were not taken down swiftly, the provider may take down that content without having taken the steps set out in subsection (3).
- (5) A provider of a service may also take down news publisher content present on the service without having taken the steps set out in subsection (3) if that content amounts to a relevant offence (see section 52 and also subsection (10) of this section).
- (6) Subject to subsection (8), if a provider takes action in relation to news publisher content or against a recognised news publisher without having taken the steps set out in subsection (3), a duty to take the steps set out in subsection (7).
- (7) The steps referred to in subsection (6) are—
 - (a) to swiftly notify the recognised news publisher in question of the action taken, giving the provider's justification for not having first taken the steps set out in subsection (3),
 - (b) to specify a reasonable period within which the recognised news publisher may request that the action is reversed, and
 - (c) if a request is made as mentioned in paragraph (b)—
 - (i) to consider the request and whether the steps set out in subsection (3) should have been taken prior to the action being taken,
 - (ii) if the provider concludes that those steps should have been taken, to swiftly reverse the action, and
 - (iii) to notify the recognised news publisher of the decision and the reasons for it (addressing any reasons accompanying the request for reversal of the action).
- (8) If a recognised news publisher has been banned from using a service (and the ban is still in force), the provider of the service may take action in relation to news publisher content present on the service which was generated or originally published or broadcast by the recognised news publisher without complying with the duties set out in this section.
- (9) For the purposes of subsection (2)(a), a provider is not to be regarded as taking action in relation to news publisher content in the following circumstances—
 - (a) a provider takes action in relation to content which is not news publisher content, that action affects related news publisher content, the grounds for the action only relate to the content which is not news publisher content, and it is not technically feasible for the action only to relate to the content which is not news publisher content;
 - (b) a provider takes action against a user, and that action affects news publisher content that has been uploaded to or shared on the service by the user.

- (10) Section (*Providers' judgements about the status of content*) (providers' judgements about the status of content) applies in relation to judgements by providers about whether news publisher content amounts to a relevant offence as it applies in relation to judgements about whether content is illegal content.
- (11) OFCOM's guidance under section (*Guidance about illegal content judgements*) (guidance about illegal content judgements) must include guidance about the matters dealt with in section (*Providers' judgements about the status of content*) as that section applies by reason of subsection (10).
- (12) Any provision of the terms of service has effect subject to this section.
- (13) In this section—
- (a) references to "news publisher content" are to content that is news publisher content in relation to the service in question;
 - (b) references to "taking action" in relation to content are to—
 - (i) taking down content,
 - (ii) restricting users' access to content, or
 - (iii) taking other action in relation to content (for example, adding warning labels to content);
 - (c) references to "taking action" against a person are to giving a warning to a person, or suspending or banning a person from using a service, or in any way restricting a person's ability to use a service.
- (14) Taking any step set out in subsection (3) or (7) does not count as "taking action" for the purposes of this section.
- (15) See—

section 16 for the meaning of "journalistic content";

section 49 for the meaning of "news publisher content";

section 50 for the meaning of "recognised news publisher".

Member's explanatory statement

This new clause requires providers to notify a recognised news publisher and provide a right to make representations before taking action in relation to news publisher content or against the publisher (except in certain circumstances), and to notify a recognised news publisher after action is taken without that process being followed and provide an opportunity for the publisher to request that the action is reversed.

Secretary Nadine Dorries NC14

 - (a) a system or process operated or used by a provider of a Part 3 service for the purpose of compliance with relevant requirements, or
 - (b) a risk assessment required to be carried out by Part 3, involves a judgement by a provider about whether content is content of a particular kind.
- (2) Such judgements are to be made on the basis of all relevant information that is reasonably available to a provider.
- (3) In construing the reference to information that is reasonably available to a provider, the following factors, in particular, are relevant—
 - (a) the size and capacity of the provider, and
 - (b) whether a judgement is made by human moderators, by means of automated systems or processes or by means of automated systems or processes together with human moderators.
- (4) Subsections (5) to (7) apply (as well as subsection (2)) in relation to judgements by providers about whether content is—

- (a) illegal content, or illegal content of a particular kind, or
 - (b) a fraudulent advertisement.
- (5) In making such judgements, the approach to be followed is whether a provider has reasonable grounds to infer that content is content of the kind in question (and a provider must treat content as content of the kind in question if reasonable grounds for that inference exist).
- (6) Reasonable grounds for that inference exist in relation to content and an offence if, following the approach in subsection (2), a provider—
- (a) has reasonable grounds to infer that all elements necessary for the commission of the offence, including mental elements, are present or satisfied, and
 - (b) does not have reasonable grounds to infer that a defence to the offence may be successfully relied upon.
- (7) In the case of content generated by a bot or other automated tool, the tests mentioned in subsection (6)(a) and (b) are to be applied in relation to the conduct or mental state of a person who may be assumed to control the bot or tool (or, depending what a provider knows in a particular case, the actual person who controls the bot or tool).
- (8) In considering a provider’s compliance with relevant requirements to which this section is relevant, OFCOM may take into account whether providers’ judgements follow the approaches set out in this section (including judgements made by means of automated systems or processes, alone or together with human moderators).
- (9) In this section—

“fraudulent advertisement” has the meaning given by section 34 or 35 (depending on the kind of service in question);

“illegal content” has the same meaning as in Part 3 (see section 52);

“relevant requirements” means—

- (a) duties and requirements under this Act, and
- (b) requirements of a notice given by OFCOM under this Act.”

Member’s explanatory statement

This new clause clarifies how providers are to approach judgements (human or automated) about whether content is content of a particular kind, and in particular, makes provision about how questions of mental state and defences are to be approached when considering whether content is illegal content or a fraudulent advertisement.

 - (a) to do any or all of the following—
 - (i) use accredited technology to identify terrorism content communicated publicly by means of the service and to swiftly take down that content;
 - (ii) use accredited technology to prevent individuals from encountering terrorism content communicated publicly by means of the service;
 - (iii) use accredited technology to identify CSEA content, whether communicated publicly or privately by means of the service, and to swiftly take down that content;

- (2) A warning notice under subsection (1) relating to the use of accredited technology (see section (*Notices to deal with terrorism content or CSEA content (or both)*)(2)(a) and (3)(a)) must—
 - (a) contain details of the technology that OFCOM are considering requiring the provider to use,
 - (b) specify whether the technology is to be required in relation to terrorism content or CSEA content (or both),

 - (b) specify steps that OFCOM consider the provider needs to take in order to comply with the requirement described in section (*Notices to deal with terrorism content or CSEA content (or both)*)(2)(b) or (3)(b), or both those requirements (as the case may be),
 - (c) specify the proposed period within which the provider must take each of those steps,
 - (d) specify any other requirements that OFCOM are considering imposing,
 - (e) state that the provider may make representations to OFCOM (with any supporting evidence), and
 - (f) specify the period within which representations may be made.
- (4) A notice under section (*Notices to deal with terrorism content or CSEA content (or both)*)(1) that relates to both the user-to-user part of a combined service and the search engine of the service (as described in section (*Notices to deal with terrorism content or CSEA content (or both)*)(4)(c) or (d)) may be given to the provider of the service only if—

To move the following Clause—

“Exemptions from offences under sections 151 and 152

- (1) A recognised news publisher cannot commit an offence under section 151 or 152.
- (2) An offence under section 151 or 152 cannot be committed by the holder of a licence under the Broadcasting Act 1990 or 1996 in connection with anything done under the authority of the licence.
- (3) An offence under section 151 or 152 cannot be committed by the holder of a multiplex licence in connection with anything done under the authority of the licence.

- (7) But such a requirement may not be imposed—
 - (a) within the period of three years beginning with the date on which the first report is published, or
 - (b) more frequently than once every three years.
