Schedule 4

LORDS AMENDMENT NO. 105

105 Page 125, line 3, at end insert—

“(iii) substantial pollution abatement equipment dealing with oxides of sulphur, oxides of nitrogen, heavy metal emissions or particles is fitted to the generating station.”

COMMONS DISAGREEMENT AND REASON

The Commons disagree to Lords Amendment No 105 for the following reason —

105A Because it is inappropriate for the fitting of pollution abatement equipment to cause the emissions limit duty to apply to existing generating stations.
COMMONS DISAGREEMENT

AND REASON

4th December 2013
