

**HOUSE OF COMMONS
SESSION 2005-06**

**CROSSRAIL BILL
PETITION**

Against the Bill - Praying to be heard by Counsel, etc.

**TO THE HONOURABLE THE COMMONS OF THE UNITED KINGDOM OF
GREAT BRITAIN AND NORTHERN IRELAND IN PARLIAMENT ASSEMBLED.**

THE HUMBLE PETITION of UKPH NO.1 LIMITED

SHEWETH as follows:-

1. A Bill (hereinafter referred to as "the Bill") has been introduced into and is now pending in your Honourable House intituled "A Bill to make provision for a railway transport system running from Maidenhead in the County of Berkshire, and Heathrow Airport, in the London Borough of Hillingdon through central London to Shenfield in the County of Essex and Abbey Wood, in the London Borough of Greenwich; and for connected purposes."
2. By Clause 46 of the Bill it is proposed that the Secretary of State ("the Promoter") may by Order (inter alia) provide that a person specified in the Order shall be the nominated undertaker ("the nominated undertaker") for such purposes of such provisions of the Bill as may be so specified and by Clause 1 of the Bill it is proposed that the nominated undertaker should be authorised to construct and maintain the works specified in Schedule 1 of the Bill ("the Works") and that Schedule 2 which contains further and supplementary provisions about works should have effect.
3. By Clause 5 of the Bill it is proposed that Schedule 5 to the Bill which contains provisions about temporary possession and use of land for the purposes of the Bill

should have effect. By Clause 6 of the Bill it is proposed that the Secretary of State should be empowered to acquire compulsorily land within the limits of deviation required for the Works within a period of five years from the date on which the Bill is passed (subject to further extension) and by Clause 7 of the Bill to acquire land outside those limits for the purposes more particularly specified therein.

4. The Bill applies certain provisions of the Compulsory Purchase Act 1965. It also incorporates certain provisions modifying that Act and the provisions of various statutory measures relating to the compulsory acquisition of land and the basis of compensation therefor.
5. Your Petitioners are a nominee company holding on behalf of Scottish Widows Investment Partnership Limited by way of investment the long Leasehold interest in 16 South Molton Street, London W1 ("the Property") which forms part of a terrace of Georgian properties located on the western side of this street. The Property is a four storey Georgian town house which has been converted for retail use. Your Petitioners understand that the Promoter has identified Georgian terraced houses as having particular characteristics which make them prone to settlement.
6. The Bill would authorise the compulsory acquisition of interests in the land beneath the Property belonging to your said Petitioners. Notice has been served upon your Petitioners by the Promoter that part of the subsoil beneath the Property is liable to be acquired for the purposes of the Works and your Petitioners apprehend that this specific acquisition of land or an interest in land is required to enable the construction of the Bond Street Station tunnel. Your Petitioners are extremely concerned that the result of the Works which the Promoter is proposing should be carried beneath the Property may result in direct physical damage being sustained to the fabric of the Property itself independently of the deleterious impact of other elements of the Works proposed within the vicinity.
- 7.1 In relation to the structural integrity and stability of the said Property your Petitioners are seriously concerned that the Bill as presented drafted does not propose to impose any obligation upon the Promoter or the nominated undertaker to take any steps to monitor the impact of the Works or the subsequent operation of the railway upon your

Petitioner's Property nor does it require the undertaking of any safeguarding or remedial works in either circumstance.

- 7.2 Your Petitioners would submit that the Bill should be amended to require that the nominated undertaker:-
- 7.2.1 Should carry out a survey of your Petitioner's Property prior to the commencement of any works proposed by the Bill and provide them with a full copy of such survey together with any recommendations made by the surveyor who has undertaken it.
 - 7.2.2 Should together with the Survey (if it is not already set out therein) provide full details of the manner in which it will monitor the impact of the Works upon the Property during and after construction.
 - 7.2.3 Should be obliged to carry out safeguarding works in the event of any damage together with full reinstatement of the Property to its state and condition prior to the commencement of the Works.
 - 7.2.4 Should be obliged to construct the railway in such a way as to minimise any risk of damage to your Petitioner's Property as a result of vibration in the ground arising out of the operation of the railway and in particular should be obliged to install floating track in areas where the railway is to run underground in tunnels.
 - 7.2.5 Should compensate your Petitioners on a full indemnity basis for all and every cost, expense and damage suffered to their Property and business in consequence of or arising out of the Works, their construction and subsequent operation.
- 7.3 Your Petitioners would submit that the construction of the Works and the subsequent operation of the railway will bring about a substantial reduction in the capital value of your Petitioner's said property and a reduction also in the level of anticipated income. The majority of the Leasehold tenancies of which your Petitioners currently have the benefit within the Property are scheduled to expire during the anticipated construction period for the Works.

- 7.4 Your Petitioners understand that at the present time the total cost of funding the construction works which the Bill proposes should be authorised has not yet been guaranteed either by the Promoter or by any third parties and accordingly unless Parliament imposes further conditions or controls in relation to funding prior to the granting of Royal Assent a considerable period of uncertainty will arise as to when and if the construction period will start and finish. In your Petitioner's submission this will create the potential for a blight for their said Property both in terms of the potential difficulty in re-letting accommodation within the property that has been vacated and in terms of the affect that the Works and other matters hereinbefore referred to will have on rental levels in the immediate vicinity. Your Petitioners would submit that the provisions for compensation proposed in the Bill will be inadequate to compensate them fully in this respect.
- 7.5 Your Petitioners therefore seek protection for the damage to their Property and interests and in particular would submit that:-
- 7.5.1 The Bill as proposed should not be allowed to pass into law unless and until Parliament has been satisfied that the whole of the funding required for the construction of the Works as described in the Bill has been secured and is in place.
- 7.5.2 The Bill should be amended to provide for compensation to your Petitioners for all loss and damage which they sustain as a result of the Works of construction authorised by the Bill including the impact of ancillary works and including full compensation for loss of the capital value of their Property arising from the blight which they anticipate will be created by the passing into law of the Bill as drawn including the loss of revenue resulting therefrom.
8. There are divers other clauses and provisions in the Bill prejudicially affecting the rights and interests of your Petitioners and other clauses and provisions necessary for their protection and benefit are omitted therefrom.
9. The Preamble of the Bill so far as it relates to the matters aforesaid is untrue and incapable of proof.

YOUR PETITIONERS THEREFORE HUMBLY PRAY your Honourable House that the Bill may not pass into law as it now stands and that they may be heard by themselves, their Counsel or Agents against the Preamble of the Bill and if the Preamble should pass against the clauses thereof and in support of such other clauses and amendments as may be necessary or proper for their protection and benefit.

AND YOUR PETITIONERS will ever pray, &c.
