URGENT QUESTIONS AND STATEMENTS

3.30pm

- Urgent Questions (if any)
- Ministerial Statements (if any)

BUSINESS OF THE DAY

1. HIGH SPEED RAIL (LONDON - WEST MIDLANDS) BILL: SECOND READING

Until 11.00pm (if the 10.00pm Business of the House Motion is agreed to)

Michael Fabricant
Sir Edward Leigh
Jeremy Lefroy
Mr David Davis
Mr David Nuttall
Mr William Cash
Mrs Caroline Spelman    Chris Kelly    Mr Andrew Turner
Bob Blackman

That this House, while recognising the ever-increasing need for additional north-south rail line capacity to relieve congestion on the West Coast Mainline and to improve
connectivity between major cities and with London, declines to give the High Speed Rail (London - West Midlands) Bill a second reading because the line as set forth in the Bill (a) is insensitively routed through previously unspoiled countryside unnecessarily damaging the environment including wildlife habitats, ancient woodlands and waterways, (b) is significantly more costly than it need be because of the extra mitigation required to reduce environmental damage arising from the current planned route, (c) unlike much of the planned route north of the West Midlands and unlike similar lines in continental Europe, does not propose the use of existing transport corridors which would mitigate environmental damage and construction costs, (d) fails to connect directly to existing major mainline stations, (e) fails to connect directly with potential airport hubs for London and the south-east of England, (f) fails to connect with High Speed 1 and the Channel Tunnel, (g) fails to provide for sufficient public transport to disperse passengers disembarking from High Speed 2 (HS2) trains at Euston, (h) provides inadequate compensation to those blighted by the route and those whose property is subject to compulsory purchase orders and (i) does not provide for construction to start from Manchester and Leeds; and therefore calls on the Government to produce revised HS2 legislation with a more environmentally sympathetic and cost-effective route.

Mrs Cheryl Gillan
Frank Dobson
Kate Hoey
Caroline Lucas
Andrew Bridgen
Tim Loughton

Mr David Nuttall        Natascha Engel        Mr Christopher Chope
Kelvin Hopkins          Dan Byles               Mr David Davis
Mrs Caroline Spelman    Chris Kelly             Mr Andrew Turner
Dr Phillip Lee

That this House, while accepting the need to increase overall railway capacity, declines to give a second reading to the Bill because there has been inadequate opportunity for Members and those affected by the Bill to consider and respond to the report of the Assessor appointed under Standing Order 224A, which was not published until shortly before the Easter recess; because assessments of the relative costs and benefits of works envisaged by the Bill have been repeatedly unconvincing and still fail to demonstrate a sound economic case for the proposed works, particularly in relation to other options; because the Secretary of State has declined to publish the Major Projects Authority report on High Speed 2, with the result that Members have been denied access to highly significant evidence on the viability of the project; because the case for starting further high-speed rail construction in this country with a line from London to the West Midlands rather than in the north of England has not been convincingly made out; because the Bill will cause widespread environmental disruption to many areas of the country including areas of outstanding natural beauty; and because the Bill should be preceded by proper consideration of and a strategy for integrating high-speed rail with other transport modes including the UK’s international airport hubs.
Amendment (a)
Mr William Cash
Line 14, after ‘beauty;’, insert ‘because the Bill fails to make provision for compensation;’.

Notes:
The Scottish Parliament has passed a Legislative Consent Resolution in respect of this Bill. Copies of the Resolution are available in the Vote Office.

Relevant documents:
