**HIGH SPEED RAIL (LONDON - WEST MIDLANDS) BILL**

**PETITION**

Against – on merits – Praying to be heard by Counsel, &c.

To the Honourable the Commons of the United Kingdom of Great Britain and Northern Ireland in Parliament assembled.

THE HUMBLE PETITION of MISS FREYA BUCKLEY

SHEWETH as follows:-

1. A Bill (hereinafter referred to as “the Bill”) has been introduced and is now pending in your honourable House entitled “A Bill to make provision for a railway between Euston in London and a junction with the West Coast Main Line at Handsacre in Staffordshire, with a spur from Water Orton in Warwickshire to Curzon Street in Birmingham; and for connected purposes”
2. The Bill is presented by Mr Secretary McLoughlin, supported by the Prime Minister, the Deputy Prime Minister, Mr Chancellor of the Exchequer, Secretary Theresa May, Secretary Vince Cable, Secretary Iain Duncan Smith, Secretary Eric Pickles, Secretary Owen Paterson, Secretary Edward Davey, and Mr Robert Goodwill.
3. Clauses 1 to 36 set out the Bill's objectives in relation to the construction and operation of the railway mentioned in paragraph 1 above. They include provision for

5. Clauses 1 to 36 set out the Bill's objectives in relation to the construction and operation of the railway mentioned in paragraph 1 above. They include provision for the construction of works, highways and road traffic matters, the compulsory acquisition of land and other provisions relating to the use of land, planning permission, heritage issues, trees and noise. They include clauses which would disapply and modify various enactments relating to special categories of land including burial grounds, consecrated land, commons and open spaces, and other matters, including overhead lines, water, building regulations and party walls, street works and the use of lorries.
6. Clauses 37 to 42 of the Bill deal with the regulatory regime for the railway.
7. Clauses 43 to 65 of the Bill set out a number of miscellaneous and general provisions, including provision for the appointment of a nominated undertaker ("the
8. Nominated Undertaker") to exercise the powers under the Bill, transfer schemes, provisions relating to statutory undertakers and the Crown, provision about the compulsory acquisition of land for regeneration, reinstatement works and provision about further high speed railway works. Provision is also made about the application of Environmental Impact Assessment Regulations.
9. The works proposed to be authorised by the Bill are specified in clauses 1 and 2 of and Schedules 1 and 2 to the Bill. They consist of scheduled works, which are described in Schedule 1 to the Bill and other works, which are described in clause 2 of and Schedules 2 and 3 to the Bill.
10. Your Petitioner is Miss Freya Buckley [hereinafter referred to as 'the Petitioner'], whose parents are the owner/occupiers of Agden Bridge Farm, Spring Lane, Lymm, Cheshire, WA13 9JT [hereinafter referred to as 'the Property']. Your Petitioner studies at Manchester High School for Girls and lives at the said property which lies near the proposed route of HS2 Phase 2, at a local beauty spot next to the Bridgewater Canal. HS2 will pass over this canal on a 5 meter high viaduct carrying the width of 4 tracks, this being the convergence of two routes (one being the main line from the midlands and the other being the route from Manchester north to Goldborne). The landscape around the Property is flat and tranquil, there being not many dwellings in the area. The Property will not be demolished but lies within approximately 70 metres from the proposed construction footprint or 85 metres from the centre of the line. Your Petitioner's circumstances are such that, her parents having in 2010 bought the Property (consisting of two dwellings) with the intention to sell one dwelling and remain in the other, it has been demonstrated that this is not possible due to the uncertainty and length of the HS2 project.

9. Your Petitioner and her human rights and interests are injuriously affected by the Bill, as in due course she will inherit the Property, which will have suffered devaluation as a result of the Bill to which your Petitioner objects for reasons amongst others, hereinafter appearing.

9.1 Your Petitioner submits that compensation provisions in relation to this property, which will not be subject to a compulsory purchase order, does not provide flexible enough arrangements and may entail greater expense for both HS2 Ltd and your Petitioner's parents. Through discussions with HS2 Ltd it has become apparent that Your Petitioner's parents are in a unique position, with two dwellings in one "Title" but wishing to sell only one dwelling, and that no other instances of this have occurred on the western leg of Phase 2.

9.2 Your Petitioner requests that, in special circumstances, compensation arrangements be made flexible to accommodate and benefit both parties and that the Bill be amended to this effect to ensure your Petitioner's parents who are injuriously affected by loss of value should be entitled to claim compensation for the full loss incurred due to HS2.

10.1 Your Petitioner is concerned that authorisation and rights of entry for surveyors is applicable to both Phases and 2. As the route of Phase 2 has not been confirmed, and as this route will not be confirmed until after the General Election of 2015, your Petitioner submits that the powers in this Bill are too broad and premature.

10.2 Your Petitioner requests that the clauses allowing for right of entry be amended so that land can only be accessed once Phase 2 route confirmation has been achieved, and that access be granted once the landowner's and occupier's consent has been sought and given. Where a Property is blighted or in close proximity of HS2 and access is required, HS2 should be obliged to acquire the property at the request of the landowner.

11.1 Your Petitioner is concerned that many of the clauses in the Hybrid Bill for Phase 1 of the HS2 route will set a precedent for Phase 2. Your Petitioner would be particularly injuriously affected by the Limits of Deviation in paragraph 1(2) of the Bill, where the limits of deviation would allow for the height of the route to be increased from 5 meters above the Bridgewater canal to 8 meters and would make significant differences to the impact and operation of the High Speed railway.

- 11.2 Your Petitioner requests that provisions in the Hybrid Bill to allow upward deviation be deleted and that the route be tunnelled under canals in rural areas and under the Bridgewater canal to maintain the flat undisturbed rural landscape.
- 12.1 Your Petitioner is concerned that HS2 Ltd has not considered and cannot yet properly consider noise thresholds as the design speed has never been achieved. Your Petitioner is concerned that noise limits set for Phase 1 will set a precedent for Phase 2, where those on Phase 2 have not yet had the opportunity to examine documentation relating to noise thresholds and would not be eligible to comment on that Code.
- 12.2 Your Petitioner requests that noise thresholds are set to be in line with World Health Organisation limits and that these are binding. Your Petitioner requests that HS2 Ltd be obliged to conform with these limits during construction and operation, and that they be monitored and enforced, and that should they be exceeded then additional mitigation measures be introduced, including reduction in train speeds in the event that noised levels are exceeded.
- 13.1 Your Petitioner is concerned that the Code of Construction Practice has no legal standing and that any Code adopted would be unspecified and would set a precedent for Phase 2, even though those on Phase 2 will not have had prior opportunity to examine the documentation relating to the Code of Construction or be eligible to comment on that Code, not being part of Phase 1.
- 13.2 Your Petitioner requests that Code of Construction Practice be incorporated into the Bill, and that the Code should be enforced and that the nominated undertaker be accountable to the Code and monitored, and that in the event of non-compliance that redress arrangements should be made.
14. For the foregoing and connected reasons your Petitioner respectfully submits that, unless the Bill is amended as proposed above, so far affecting your Petitioner, should not be allowed to pass into law.
15. There are other clauses and provisions of the Bill which, if passed into law as they now stand will prejudicially affect your Petitioner and her rights and interests, and for which no adequate provision is made to protect your Petitioner.

YOUR PETITIONER therefore humbly pray your Honourable House that the Bill may not be allowed to pass into law as it now stands and that they may be heard by their Counsel, Agents and witnesses in support of the allegations of this Petition against so much of the Bill as affects the property, rights and interests of your Petitioner and in support of such other clauses and provisions as may be necessary or expedient for their protection, or that such other relief may be given to your Petitioner in the premises as your Honourable House shall deem meet.

AND your Petitioner will ever pray, &c.

Signed FREYA BUCKLEY
